Sec. 3137.88  What happens when a well outside a participating area does
not meet the productivity criteria?

  If a well outside any of the established participating area(s) does
not meet the productivity criteria, all operations on that well are non-
unit operations and we will not revise the participating area. You must
notify BLM within 60 calendar days after you determine a well does not
meet the productivity criteria. You must conduct non-unit operations
under the terms of the underlying lease or other federally-approved
cooperative oil and gas agreements.
