        Subpart 3137_Unitization Agreements_National Petroleum Reserve-Alaska

Sec. 3137.91 When will BLM allow a well previously determined to be a non-unit
well to be used in establishing or modifying a PA?

        If you, as the unit operator, complete sufficient work so that a
well BLM previously determined to be a non-unit well now meets the
productivity criteria, you must demonstrate this to BLM within 60
calendar days after you determine that the well meets the productivity
criteria. You must then modify an existing participating area or
establish a new participating area (see Sec. 3137.84 of this subpart).
