Abstract: In most cases, people are not allowed to collect plants in national parks. However, federal law and certain regulations (36 CFR 2.1(c)) allow exceptions, including situations where a federally recognized Tribe has the legal right to gather plants for traditional purposes.

Under 36 CFR 2.6, members of federally recognized Tribes may gather plants or plant parts in a park if their Tribe has a gathering agreement with the National Park Service (NPS). These agreements honor Tribal sovereignty, support government-to-government relationships, and ensure that NPS applies the rules consistently across parks.

Section 2.6(f) of the regulations explains how NPS and a Tribe work together to create a plant-gathering agreement. After an agreement is completed, NPS issues a permit that authorizes Tribal members to gather specific plants. Only enrolled Tribal members who are designated by the tribe to gather and whose Tribe has a long-standing, historical connection to the park—and whose connection existed before the park was created—may gather plants. The gathering must be for traditional cultural purposes, must be sustainable, and cannot be for commercial use. The information collection covered by these rules includes:

- A Tribe's request to enter into a plant-gathering agreement.
- Information needed to develop the agreement, such as the Tribe's traditional connection to the park, the cultural purpose for gathering, and details about the types and amounts of plants to be gathered.
- Information submitted if a Tribe appeals an NPS decision denying a request, such as documentation of the Tribe's historical connection to the park, traditional practices, or potential effects on park resources.

Abstract: The regulations at 30 CFR 250, subpart L, Oil and Gas Production Measurement, Surface Commingling, and Security, are the subject of this collection. This request also covers the related Notices to Lessees and Operators (NTLs) that BSEE issues to clarify, supplement, or provide additional guidance on some aspects of our regulations. BSEE uses the information collected under subpart L to ensure that the volumes of hydrocarbons produced are measured accurately, and royalties are paid on the proper volumes. Specifically, BSEE needs the information to:

Liquid Hydrocarbon Measurement

- Determine if measurement equipment is properly installed, provides accurate measurement of production on which royalty is due, and is operating properly;
- Ascertain if all removals of oil and condensate from the lease are reported;
- Obtain rates of production measured at royalty meters, which can be examined during field inspections;

Gas Measurement

- Ensure that the sales location is secure and production cannot be removed without the volumes being recorded;

Surface Commingling

- Review gas volume statements and compare them with the Oil and Gas Operations Reports to verify accuracy.

Miscellaneous & Recordkeeping

- Review proving reports to verify that data on run tickets are calculated and reported accurately.

Certain Gyro-Stabilized Electric Unicycles and Components Thereof and Products Containing the Same; Notice of a Commission Determination Not To Review an Initial Determination Granting Complainants' Unopposed Motion To Amend the Complaint and Notice of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that the U.S. International Trade Commission has determined not to review the presiding administrative law judge's ("ALJ") initial determination ("ID") (Order No. 18), granting complainants' unopposed motion to amend the complaint and notice of investigation to add Guangzhou Coyote Intelligent Equipment Co., Ltd. d/b/a LeaperKim ("LeaperKim Coyote") as a respondent.

FOR FURTHER INFORMATION CONTACT:

Cathy Chen, Office of the General Counsel, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436, telephone 202–205–2392. Copies of non-confidential documents filed in connection with this investigation may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>. Hearing-impaired persons are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205–1810.

SUPPLEMENTARY INFORMATION: The Commission instituted this investigation on March 5, 2026, based on a complaint

filed on behalf of Inventist, Inc. of Camas, WA and Alien Technology Group, Inc. d/b/a Alien Rides. of San Francisco, CA (collectively, "Complainants"). 91 FR 10,827 (Mar. 5, 2026). The complaint, as amended, alleged violations of section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, in the importation into the United States, the sale for importation, and the sale within the United States after importation of certain gyro-stabilized electric unicycles and components thereof and products containing the same by reason of the infringement of certain claims of U.S. Patent No. 8,807,250 and the claim of U.S. Patent No. D729,698. *Id.* The complaint, as amended, further alleged that an industry in the United States exists or is in the process of being established as required by the applicable Federal Statute. *Id.* The Commission's notice of investigation named the following respondents: Immotion Technologies Co., Ltd. d/b/a Immotion ("Immotion"); Guangzhou Veteran Intelligent Technology Co., Ltd. d/b/a LeaperKim; Dong Guan BECODE Intelligent Technology Co., Ltd. d/b/a BECODE; Shenzhen King Song Intelligence Technology Co., Ltd. d/b/a Kingsong; Guangzhou JiDongTai Intelligent Equipment Co., Ltd. d/b/a Nosfet, all of Guangdong, China. *Id.* The Office of Unfair Import Investigations ("OUII") was also named as a party in this investigation. *Id.*

Respondent Immotion has been terminated from the investigation based on a settlement agreement. Order No. 11 (May 21, 2026), *unreviewed by Comm'n* Notice (Jun. 18, 2026).

On August 7, 2026, Complainants filed a motion to amend the complaint and notice of investigation to add LeaperKim Coyote as a respondent pursuant to Commission Rule 210.14(b). OUII filed a response in support of the motion.

On August 18, 2026, the ALJ issued the subject ID (Order No. 18), granting the motion to amend the complaint and notice of investigation to add LeaperKim Coyote as a respondent. The ID found Complainants demonstrated good cause to grant the motion. Order No. 18 at 2 (Aug. 18, 2026). Specifically, the ID observed that good cause exists to grant the motion because Complainants recently "learned through LeaperKim Coyote's former *pro se* representative [] that the originally named LeaperKim respondent, Guangzhou Veteran Intelligent Technology Co., Ltd. d/b/a LeaperKim [], is allegedly defunct, and that LeaperKim Coyote is allegedly a separate legal entity that currently owns

the LeaperKim trademark." *Id.* (quoting Mot. at 1, Doc. ID No. 890866 (Aug. 7, 2026)). The ID noted that Complainants argued that "[g]ranteeing the requested amendment will not prejudice any party or the public interest." *Id.* (quoting Mot. at 1). No petitions for review were filed.

The Commission has determined not to review the subject ID. Respondent LeaperKim Coyote is added as a respondent in this investigation.

The Commission vote for this determination took place on September 15, 2026.

The authority for the Commission's determination is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in Part 210 of the Commission's Rules of Practice and Procedure, 19 CFR part 210.

By order of the Commission.

Issued: September 16, 2026.

Lisa Barton,

Secretary to the Commission.
