

Proposed changes to OMB Control Number 1653-0038

- Create a new SEVIS page to allow a DSO to recommend an extension of stay and select the reason for the extension.
- Modify the Extend Program page to allow a DSO to specify the reason for the program extension (medical or academic) and provide a separate explanation for why the extension is necessary.
- Add a field for a DSO to enter a student's graduation or degree conferred date.
- Update the instructions on Form I-20.
- Create a new Travel Signature page to assist CBP with reviewing a continuing student's eligibility for re-entry. This new page will eliminate the need for a DSO to electronically sign the form by capturing a digital signed attestation confirming that the student is in good standing.
