SUPPORTING STATEMENT

Prompt Corrective Action, 12 CFR 702
(Subparts A-D)
OMB No. 3133-0154

A. JUSTIFICATION

1. Circumstances that make the collection of information necessary.

The information collection is required under section 216 of the Federal Credit Union Act (12 U.S.C. §1790d). Section 216 mandates prompt corrective action requirements for federally insured credit unions (FICUs) that become less than well capitalized. Section 216 requires the NCUA Board to (1) adopt, by regulation, a system of prompt corrective action to restore the net worth of inadequately capitalized FICUs; and (2) develop an alternative system of prompt corrective action for new credit unions that carries out the purpose of prompt corrective actions while allowing an FICU reasonable time to build its net worth to an adequately capitalized level. Part 702 implements the statutory requirements. To achieve this, various information collections are required on occasion as the circumstances require. Part 702, subparts A through D, contains the following information collection requirements (ICRs):

- Request for NCUA approval prior to taking specific actions when operating under a Discretionary Supervisory Action;
- Appeal to the NCUA Board of certain Mandatory Conservatorship, Liquidation, or Other Corrective Action;
- Request for approval pay dividends if the action would cause the credit union's net worth to fall below adequately capitalized and the action is not included in an approved net worth restoration plan (NWRP);
- Submission of a NWRP and resubmission of a NWRP when there has been a change in the credit union's net worth category or the plan was denied by NCUA;
- Request from a small or new credit union for assistance in developing an NWRP or revised business plan (RBP);
- Request for a waiver of the earnings retention requirement if the credit union is below well capitalized;
- Written notice from a new credit union if its net worth classification declines; and
- New credit union submission of a RBP if the credit union's net worth classification declines or a RBP is denied by NCUA.

2. Purpose and use of the information collected.

The purpose of prompt corrective action is to resolve the problems of FICUs at the least possible long-term loss to the National Credit Union Share Insurance Fund (NCUSIF). NCUA requires various information collections to meet the purpose of prompt corrective action. Part 702, subparts A through D, establishes a framework of discretionary and mandatory supervisory actions, applicable according to a credit union's net worth ratio, designed primarily to restore and improve the net worth of FICUs. Some of these supervisory actions require a credit union to request approval prior to taking specific actions. Credit unions meeting certain criteria are required to submit plans detailing how they will improve their net worth position. Additionally, Part 702 allows for various waivers to the requirements outlined in Part 702. NCUA uses the information to determine whether the credit union is restoring its net worth in accordance with prompt corrective actions or to determine whether a waiver of certain requirements is warranted.

3. Use of information technology.

Credit unions may use any information technology available to submit the required information.

4. Duplication of information.

The information collection is unique to each credit union and is not duplicated.

5. Efforts to reduce burden on small entities.

The statute and regulation require the same information to be collected from small entities as from other entities. The regulation allows small and new entities to request assistance in developing a NWRP or RBP.

6. Consequences of not conducting the collection.

The FCU Act mandates the requirements for prompt corrective action. NCUA needs the information collected to ensure credit unions are complying with prompt corrective action requirements. The consequence of noncompliance would be severe because noncompliance could lead to large losses to the NCUSIF.

7. Inconsistencies with guidelines in 5 CFR §1320.5(d)(2).

There are no special circumstances. This collection is consistent with the guidelines in 5 CFR §1320.5(d)(2).

8. Efforts to consult with persons outside the Agency.

A 60-day notice was published in the Federal Register on July 16, 2026 at 91 FR 43672, soliciting comments from the public. One comment was received in response to that notice. No response was provided as the comment was unrelated to the actual information collection request.

9. Payment or gifts to respondents.

No payment or gift is provided to respondents.

10. Assurance of confidentiality.

There is no assurance of confidentiality other than that provided by law. Certain credit union information obtained in this information collection or as part of NCUA's supervisory process is confidential.

11. Questions of a sensitive questions.

There are no questions of a sensitive nature. No personal identifiable information (PII) is collected.

12. Burden of information collection.

Line Items 1, & 2: These information collection activities have had no respondents provide information since the last reporting period. For this submission, NCUA identified one respondent for these information collection activities with no burden assigned. NCUA will monitor and update these information collection activities with each review.

The estimated hourly wage rate of \$35 is applied for a total cost to respondents at \$68,215.

13. Capital start-up or on-going operation and maintenance costs.

There are no capital start-up or maintenance costs.

14. Annualized costs to the Federal government.

The total cost for NCUA staff to review and act upon these information collections are as follows:

Total Estimated Cost to NCUA				\$69,768

15. Changes in information collection burden.

The number of respondents was adjusted for several information collection activities due to the number of credit unions impacted by PCA. These adjustments resulted in the total estimated annual burdens hours decreasing from 2,433 to 1,949.

16. Information collection planned for statistical purposes.

The information collection is not used for statistical purposes.

17. Request non-display the expiration date of the OMB control number.

There are no traditional forms associated with this information collection requirement. The OMB control number and expiration date associated with this PRA submission will be displayed on the Federal Government's electronic PRA docket website at www.reginfo.gov.

18. Exceptions to Certification for Paperwork Reduction Act Submissions

There are no exceptions to the certification statement.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not involve statistical methods.
