I recommend we do not collect the information, so as to better protect the National forest from the corrupt and incompetent trump / republican administration. The trump / republican administration demonstrated it's incompetence in the first term with their failed response to the Covid Virus when 1 million Americans died and the economy shut down. So far during their second term they failed miserably to lower inflation and cost of living, failed to end wars, and millions have lost healthcare.

So, to allow the trump/ republican disaster show to destroy the National forests with sawmills and any other proposal is hurting America. I propose we emergency hire the Biden Administration to manage our public lands until the next election.
