Licensee Worksheet

- 1. To add a licensee click the **Add Licensee** button below and an **Add Licensee** dialog will show.
- 2. Enter the name of the licensee with which a license and/or option is or was active in the designated reporting period.
- 3. Check the **Small Business** checkbox if the licensee is a small business (as defined by relevant SBA regulations).
- 4. Enter the total number of exclusive licenses and/or options and non-exclusive licenses and/or options that are or were active for that licensee.
- 5. When you have entered all information for the licensee in the **Add Licensee** dialog, click the **Save** button to return to this **Licensee Worksheet**.
- 6. Finally, after entering the information for all licensees click the **Save and Return to Utilization Report** button for these answers to be populated in the Utilization Report.

DOE Supplemental Questions

Approximate number of new US-based jobs created because of commercialization efforts during the reporting period.

Number of new US-based companies created from the commercialization efforts during the reporting period.

For each licensee listed in Question 4 (exclusive licensee) and Question 5 (non-exclusive licensee), was equity retained in the designated reporting period as part of the license?

Unique Commercial Products Made Through the Use of or Embodying the Subject Inventions. Please note, for each product also list the associated NAICS code (if applicable).

(0 manufactufing products found)

NIH Supplemental Questions

Please provide the commercial name of any FDA-approved products, utilizing this invention, that have first reached the market during the designated reporting period.

Please note: Commercial names should be limited to FDA-approved products that first reached the market during the designated reporting period. Please remove the "Public" checkmark from any FDA-approved product that you do not want to appear on a publicly available list of products arising from your funding agreement.
