

SUPPORTING STATEMENT - PART A

Federal Post Card Application – 0704-0503

Summary of Changes from Previously Approved Collection:

- Removed one option for classification of the voter's (U.S. citizen who never resided in the U.S.).
- Changed the ID portion of Section 1 of the form (SF-186) to clarify which document they are providing based on state requirements.
- Minor changes to bullet formatting in the instructions on the back of both forms.
- Slight change Section 6, that clarifies some special ID requirements for certain states.
- The burden has increased based on an increase in respondent hourly wage.
- The cost to the federal government has increased based on inflation.
- These are the same changes on the Federal Post Card Application.

1. Need for the Information Collection

The Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA), 52 Chapter 203, requires the Presidential designee (Secretary of War) to prescribe an official backup ballot for use by the States to permit absent uniformed services voters and overseas voters to participate in general, special, primary and runoff elections for Federal office. The authority for the States to collect personal information comes from UOCAVA. The burden for collecting this information resides in the States. The Federal government neither collects nor retains any personal information associated with these forms.

2. Use of the Information

The collected information will be used by state and local election officials to process uniformed service members, spouses and overseas citizens who submit their information to register to vote or receive an absentee ballot. The collected information will be retained by election officials to provide election materials including absentee ballots, to the uniformed services, their eligible family members and overseas voters during the form's eligibility period provided by State law. No information from the Federal Write-In Absentee Ballot (FWAB) is collected or retained by the Federal government. The FWAB is completed in hardcopy or via the Federal Voting Assistance Program's (FVAP) online assistant (fvap.gov), and then submitted by the voter to an Election Official through mail, email, or fax (depending on State instructions). Per the law, FVAP regularly reaches out to UOCAVA citizens in order to raise awareness of its voting assistance services, primarily via its website, FVAP.gov.

3. Use of Information Technology

The Federal Voting Assistance Program does not collect responses to the FWAB. Neither does any other federal entity. The individual States set standards and legislate for the possibility of electronic submission.

4. Non-duplication

The information obtained through this collection is unique and is not already available for use or adaptation from another cleared source.

5. Burden on Small Businesses

This information collection does not impose a significant economic impact on a substantial number of small businesses or entities.

6. Less Frequent Collection

The applicant is required to update and resubmit the information annually, whenever they change their mailing address or as otherwise required by State law. If the information is not submitted annually or whenever they change their mailing address, the applicant may not receive ballots for elections for Federal office in that calendar year.

7. Paperwork Reduction Act Guidelines

This collection of information does not require collection to be conducted in a manner inconsistent with the guidelines delineated in 5 CFR 1320.5(d)(2).

8. Consultation and Public Comments

Part A: PUBLIC NOTICE

Pursuant to 5 CFR 1320.13, the Federal Voting Assistance Program (FVAP) is requesting emergency processing and clearance from the Office of Management and Budget (OMB) for this information collection. Consequently, standard pre-clearance public comment periods (the 60-day and 30-day notice windows) are requested to be bypassed to ensure timely implementation.

Part B: CONSULTATION

No additional consultation apart from soliciting public comments through the Federal Register was conducted for this submission.

9. Gifts or Payment

No payments or gifts are being offered to respondents as an incentive to participate in the collection.

10. Confidentiality

While this information is collected and retained by individual States, counties, and municipalities – not DOD – the Department has included a Privacy Act Advisory to help individuals make informed decisions about providing their data.

A System of Record Notice (SORN) is not required for this collection because records are not retrievable by PII.

A Privacy Impact Assessment (PIA) is not required for this collection because PII is not being collected electronically.

11. Sensitive Questions

The respondent's complete or partial Social Security Number is required to meet certain State voter registration requirements. The purpose and use of this information is determined by the States. FVAP does not collect or use this information.

12. Respondent Burden and its Labor Costs

Part A: ESTIMATION OF RESPONDENT BURDEN

1. Collection Instrument(s)

Federal Write-In Absentee Ballot

- a. Number of Respondents: 1,200,000
- b. Number of Responses Per Respondent: 1

The Respondent hourly wage was determined by using the May 2025 National Occupational Employment and Wage Estimates located on the Department of Labor Statistics Occupational Employment Statistics Website (https://www.bls.gov/oes/current/oes_nat.htm)

13. Respondent Costs Other Than Burden Hour Costs

There are no annualized costs to respondents other than the labor burden costs addressed in Section 12 of this document to complete this collection.

14. Cost to the Federal Government

The information is not collected and processed by the Federal government. The cost of collecting and processing the information is borne by the individual State and local election offices as part of providing voter registration and election services to citizens claiming their state as legal residence.

FVAP purchases hardcopy forms from GSA for distribution to installations, organizations, and individuals that request them for use in trainings and as ballot requests. Some of the Services purchase hardcopy forms for distribution to individuals who are unable to access the electronic version.

15. Reasons for Change in Burden

There is an increase in burden due to an increase in respondent hourly wage.

16. Publication of Results

The results of this information collection will not be published.

17. Non-Display of OMB Expiration Date

We are requesting continued approval to omit the expiration date. This form is stocked by Federal and non-government agencies for distribution to and use by uniformed services, their eligible family members, and overseas voters. If the form contains the OMB expiration date, voters may believe they will continue to receive absentee ballots beyond what is allowed by State law. This confusion would disenfranchise citizens. Additionally, requiring the form to be revised and reissued on a triennial basis would incur unnecessary expense where previous versions of the form meet UOCAVA requirements. Furthermore, voters who only have access to an “expired” form may not realize it can be used for voter registration and ballot request purposes and would thus be disenfranchised.

18. Exceptions to “Certification for Paperwork Reduction Submissions”

We are not requesting any exemptions to the provisions stated in 5 CFR 1320.9.
