Application Overview

ELIGIBILITY- The responses to the questions below will determine your eligibility for the Nurse Corps Loan Repayment Program. Prior to responding to the questions in this section, read the Nurse Corps Loan Repayment Program [Application and Program Guidance](#) to determine your eligibility.

PERSONAL INFORMATION- The personal information you enter in this section, such as your name, address, date of birth, birth location, and Social Security number, will be used as a part of your application for communication of program information and updates, and verification of documentation. This demographic information will also be used for strategic planning and marketing of the Nurse Corps Loan Repayment Program to enhance recruitment efforts for future funding.

PROFESSIONAL INFORMATION- In this section, you will identify the discipline/specialty for which you are licensed to provide clinical services and your degree information. The options provided are specific to the current list of Nurse Corps Loan Repayment Program approved disciplines and specialties. Please review the education, training, and certification requirements for your discipline/specialty as defined in the FY 2025 Nurse Corps Loan Repayment Program Application Program Guidance. You will certify the accuracy and truthfulness of your selections before you submit your complete application. You will not qualify for the Nurse Corps Loan Repayment Program if you do not meet the discipline, training, and certification requirements prior to the application deadline April 24, 2025, 7:30 PM EDT.

LOAN INFORMATION- In this section, you will be required to add the loans that you want approved for repayment under the Nurse Corps Loan Repayment Program. You can add the loans manually or, to expedite this process, you may import your federal student loan(s) from the [U.S. Department of Education's Federal Student Aid](#) website directly into the online application. For loans imported from the Federal Student Aid website, no supporting documents are required.

To successfully add your loans manually and to ensure that your loans have the best chance to qualify for repayment when reviewed, for each loan, you must retrieve, scan and upload the current account statements from your loan servicers and the Student Aid Report from your Federal Student Aid online account or a disbursement report for any private loans.

DOCUMENTS- In this section, you will be asked to upload various documentation to support and verify the credibility of your application. You are encouraged to save your documents as PDF files before uploading to your application. You should not attempt to upload documents larger than 5MB, or files formatted as Excel and HEIC. In addition, the Nurse Corps Loan Repayment Program must be able to review the details of your application documents clearly. Submitting pictures, password protected, and incomplete or illegible documents will disqualify your application from consideration. All information provided in the supporting documents and online application must match exactly. Any disparities will cause your application to be deemed ineligible. For further specifics on required and supporting documentation, please refer to the Documents Needed table below. All document uploads will be time-stamped in Eastern Time.

REVIEW & SUBMIT- Please review each section listed below prior to submitting your application. Do not submit your application until you are certain it is accurate and complete. After submission, your final application will be available to review, download, and edit. We recommend that you print a copy from the application homepage for your records. The supporting documents will be listed on the application homepage. All decisions regarding FY 2025 Nurse Corps Loan Repayment Program applications will be made by April 24, 2025, 7:30 PM EDT.

Employment Location Search

Section 2 of 5

To be eligible for the Nurse Corps Loan Repayment Program and to meet funding preferences, your site must fall into one of the Critical Shortage Facility site types, and must be located in a Primary Medical Care or Mental Health Professional Shortage Area.

A Health Professional Shortage Area score and designation status can change at any time throughout the year, impacting the Nurse Corps Loan Repayment Program's ability to accurately assign your application to the correct preference. To eliminate the impact of fluctuations in Health Professional Shortage Area scoring and designations during the Nurse Corps Loan Repayment Program 2025 application and award cycle, and for the purposes of determining funding preference, Nurse Corps Loan Repayment Program will "freeze" the Health Professional Shortage Area designations and scores and will assess all applications based on Health Professional Shortage Area data in our system as of the end of the application close date. Please refer to the Application and Program Guidance for the Health Professional Shortage Area definition and how to locate facility scores.

Important Note:

- The period of time between initiation of the Critical Shortage Facility Site request and submission of the Employment Verification by the site's Point of Contact could take approximately 5 business days. Therefore, it is recommended that you start the Employment Verification process as soon as possible.
- Employment Verification Forms and applications not submitted by the April 24, 2025, 7:30 PM EDT deadline will not be considered for review. The deadline will not be extended due to delayed receipt of Employment Verification Forms.
- Applicants are responsible for ensuring that a Site Not Found request and Employment Verification have been submitted in advance to allow sufficient time for processing. Applicants that cannot find their school or site should submit a School or Site Not Found request. School or Site Not Found requests that are submitted to the Nurse Corps Loan Repayment Program within 24 hours of the application deadline are unlikely to be processed in time.

Do you currently work at multiple Critical Shortage Facility Sites?

☒ Yes ☐ No

Are you working at the same employer at all Critical Shortage Facility sites? (Optional)

LOAN INFORMATION

The Loan Information page captures the loan data that an Applicant will submit with their Nurse Corps Loan Repayment Program application. If an Applicant has a National Student Loan Data System (NSLDS) account and wishes to submit federal loans as part of their NC LRP application, they will have the option to retrieve and submit their federal loans. Applicants also can manually add non-federal loans to their application, or to enter federal loan data manually as well. The steps to retrieve loans using the NSLDS and/or to add loans manually are listed below.

Loan Information

All fields are required unless marked Optional

In this section, you will be required to add the loans that you want approved for repayment under the Nurse Corps Loan Repayment Program. To expedite this process, you may import your federal student loan(s) from the U.S. Department of Education's Student Aid Summary (commonly known as a "Federal Student Aid Summary") directly into the online application. For loans imported from the Federal Student Aid Summary, no supporting documents are required. After importing, you will be given the option to indicate which imported loans you would like to be considered for repayment.

You can manually enter loans that are not covered in the Federal Aid Summary (e.g., private education loans) along with supporting documents. Any loans that do not appear in your Federal Aid Summary account must be added to your application manually. Please do not manually enter loans that you have imported. If you attempt to manually add a loan but receive an error message, check if the loan is a duplicate to one that you have imported. If not, check the loan data and try to enter it manually again.

Add Manual Loan

You have elected to add your qualifying education loans to your application manually. This method is required for adding ALL loans that are NOT federal student loan(s). If you have elected to add your federal student loan(s) using this method you must not attempt to add them using the electronic import method, or you will receive an error message which will put you at risk of missing the application deadline. You are strongly encouraged to read the Nurse Corps Loan Repayment Program and Application Guidance before adding your loans.

Include all qualifying education loans. Please exclude letters, special characters (i.e., \$, %), and commas when entering outstanding loan balances and interest rates. If you have multiple loans with the same servicer/lender, you must enter each loan separately.

To add your loans successfully, retrieve, scan and upload the current account statements from your loan servicers and the Federal Student Aid Summary Detailed Information from your FSA online account or a disbursement report for any private loans, for each loan.

When entering your loan information manually, you must enter loan information and supporting documentation for each servicing lender that you wish to be considered for repayment.

Supporting Documents

- Account Statement (Both private and federal) - Most recent statement from your lender/servicer that has your name, current loan balance and interest rate. This may be the official paper version, or a printed web version, that is scanned, uploaded, and not older than 30 days from the date you will submit your application.
- The Federal Student Aid Summary Detailed Information (Federal Loans) - Most recent summary detailed information taken from your Federal Student Aid account. This may be the official paper version, or a printed web version, that is scanned and uploaded.
- Disbursement Reporter Promissory Note (Non-federal loans) - A copy of the document provided by your lender/servicer that outlines the details of your loan agreement, including your name, the date the loan was obtained, the purpose of the loan, account numbers, and the loans included in a consolidation (if applicable).
- Consolidated Educational Loans - Consolidations that are submitted for repayment have the same documentation requirements as single loans. However, the loan origination and/or disbursement reports you upload must include a listing of all of the loans that make up the consolidation. This is necessary to verify that all of the loans within the consolidation qualify for repayment. If there are any loans within the consolidation that do not qualify, then the entire consolidation will be deemed ineligible.

For each field completed below, the supporting documents must verify the information you have entered.

The NC LRP Application BMISS Hypercare team will monitor the BMISS Issue Tracker to define and resolve the issue. Once the issue is resolved, the Hypercare team will notify the Customer Care Center Analyst of the resolution.
- b. **Capturing Issues:** It is important to capture and log as much detail as possible. The BMISS Hypercare Support Team will need enough information to recreate the issue to solve the problem. Applicant details should include the following:
 - Applicant information: Full name, last four of SSN, email, phone number.
 - The exact NC LRP Online Application screen the Applicant was on when the issue occurred (screenshot if applicable).
 - The Web Browser the Applicant was using (e.g. Internet Explorer, Firefox, etc.).
 - The frequency of the issue (e.g. always, sometimes, etc.).

- a. **Division Support Process:** If an Applicant has a program question, the Customer Care Center will try to answer the problem by referring to the Application and Program Guidance. If the Customer Care Center is unable to answer the question, then the Applicant's question and information are recorded, and the Customer Care Center submits a ticket in the Escalation Management System (EMS). DNHSC analysts will answer the question, and the Customer Care Center responds back to the Applicant.
- b. **Online Application Program Issues:** For program/policy related questions, please submit a ticket in EMS.
- c. **Capturing Applicant Information:** The following Applicant information should be captured with as much detail of the issue as possible:
