

Justification Statement – Non-substantive Change

Workforce Recruitment Program (WRP)

Expiration Date: 7/2029

ODEP is requesting approval for a non-substantive change relating to the Workforce Recruitment Program Application that is part of the currently approved information collection under OMB Control No. 1230-0017, in which the WRP connects students with disabilities to an opportunity for employment. The Talent Program Application now permit applicants who had applied to WRP in a previous year to re-use and modify an existing application. Furthermore, this same document now specifies the year, permits the user to preview or modify a resume, removes confusing language concerning expected or actual date of graduation, asks users to review and confirm that information is correct, modifies language concerning what happens after submission of the application, changes the word “Demographic” to lower-case, and removes a reference to private sector employers. The Hiring Information Page now explicitly informs users to enter only their WRP work history. Since these revised pages will replace the original versions, there will be no change to the burden in terms of hours or cost.
