Privacy Statement

Our Privacy Commitment to You

U.S. Citizenship and Immigration Services (USCIS) is committed to maintaining the privacy of your Personally Identifiable Information (PII) in accordance with USCIS standards.

Your Expectation of Privacy

USCIS understands that you expect your privacy and personal information to be protected. That is why the Self Check service is designed to require that you authenticate your identity before we allow you to access the information we have about you.

Collection, Retention, and Use of Information about You

The identity assurance questions asked and the answers you submit are not provided to USCIS. USCIS does not retain any personally identifiable information in its Self Check DHS logs. Only transaction ID and error codes are retained to facilitate troubleshooting and system management. Third party data providers retain logs of access to your personal information in order to comply with their legal obligations to protect personally identifiable information in their possession per the Fair Credit Reporting Act. The terms and conditions that define the contract for identity proofing permits them to use this information only in very limited ways such as fraud monitoring and prevention within their own database. The Fair Credit Reporting Act also mandates restrictions on the sharing of any data obtained by the third party data provider.

The identity proofing process relies on data already in the possession of the third party data provider. If you fail identity proofing, only a set of error codes will be returned to USCIS. USCIS does not retain the questions, your answers, or any identifying information supplied by you during the identity authentication process. If you decide to cancel the identity proofing process during the session, or if the session times out because of inactivity, the personal information entered by you and any questions generated by the identity authentication provider is not retained in Self Check. If the answers to the questions match the information contained in the commercial database you will be allowed to continue through the Self Check process. If you successfully pass identity proofing, the personal information you enter persists for the purpose of employment eligibility verification.

Your name, date of birth, and Social Security number (if you provided it during the identity assurance step) will be persisted and will pre-populate the employment eligibility check. Next, you will be required to enter additional information based on the documentation you would present to an employer for processing in E-Verify. The information collected from you is dependent on your citizenship status and your document choices but could include: Social Security Number; Citizenship Status; Alien Number; Passport Number; I-94 Number; and /or Permanent Resident or Employment Authorization Document (EAD) Card Number. This is the information that is used to determine employment authorization in the E-Verify process. This process is the same process as the basic E-Verify query and is described in the E-Verify PIA, dated May 4, 2010.

We reserve the right to change this Privacy Statement at any time.

Work Authorization Confirmed

Bernette,

Congratulations, Self Check confirmed that you are eligible to work in the United States. For more information on how we were able to confirm your work eligibility, click the link below.

Work Authorization Details

Self Check compared the information you provided to U.S. government records and can confirm that, based on the information you provided, you are eligible to work in the United States.

If you are hired today by an E-Verify participating employer and you use the same documents and information provided, you will likely be instantly work authorized when your employer checks your information using E-Verify.

In the event that you are not instantly work authorized, please work with your employer to ensure that your information was entered correctly and, if necessary, follow the step outlined by E-Verify to resolve any issues.

This doesn't mean that you are guaranteed to pass through E-Verify without issue. A number of things can happen between now and when a future employer checks your information using E-Verify that may cause you to get a mismatch. Those things include name changes, citizenship status changes, expiration of work authorization, or simple data entry error when your employer is entering your information into E-Verify. It is important that you keep your records up to date with the government to ensure an accurate employment verification process.

Why You Have This Notice

Self Check just compared the information you provided against the Department of Homeland Security's (DHS) immigration record databases as part of the process to assess your work authorization status.

You received this Notice because there may be a mismatch between the data you entered and the data in your DHS records. It does not mean that you gave wrong information or that you are not authorized to work in the United States.

A Self Check mismatch can occur for various reasons, including:

- Your information must be manually checked by a DHS representative before confirming work authorization;
- Your personal data and/or document information may have been recorded incorrectly in DHS records;
- Your information may not have been updated in DHS records at the time your information was checked in Self Check;
- Your citizenship or immigration status may have changed; or
- Your record may contain another type of error.

==== IMPORTANT ====

You are not required to take any further action after receiving a mismatch through your use of Self Check. If you choose to inquire further into why you have received a mismatch (as directed below), DHS will review the information you provided against government records to determine if you are authorized to work OR if you have any issues with your records that must be corrected. If there is an issue that must be corrected, the DHS representative will give you instructions on how to correct your record. This Notice does not mean that you are not eligible to work or that the information that you provided as part of your Self Check is fake.

If You Choose to Inquire About Your Mismatch

1. Call DHS at the following number: (855) 804-0296
2. Please have available the documents that you used to make the Self Check query AND this notice when speaking to the representative.
3. Provide the representative with your Case Verification number (contained on this notice) and any additional information requested. This begins the review process.
4. After 5 days, visit [uscis.gov/selfcheck](#) and click the link that allows you to check the status of your Self Check case.
5. Enter your Case Verification Number, and any additional information required, in the data fields provided.
6. You will then be provided with information about your employment eligibility status, including guidance on how to correct any errors in your records that may have been found.

Please Note: Do not simply run another Self Check query. Doing so will produce the same result you obtained as a result of this query.

==== IMPORTANT ====

Note: Self Check is an informational service that provides you, the user, with information about your work authorization status as of the date and time of the Self Check query. A favorable determination on work authorization through Self Check or any subsequent interaction with the Department of Homeland Security does not mean that you have been issued a work authorized credential OR will be work authorized when run through E-Verify by your employer.

Know Your Rights: Quick List

- Your employer or any organization may **NOT** require you to run a Self Check as a condition of employment, membership or receipt of any benefit.
- Your employer may not use Self Check to re-verify your employment eligibility if you are an existing employee.
- If you believe that you have been subjected to discrimination based upon your national origin or citizenship or immigration status with respect to hiring, firing, recruitment or referral for a fee, through your employer's use of E-Verify, or when completing the Form I-9, contact the Department of Justice, Civil Rights Division, Office of Special Counsel for Immigration Related Unfair Employment Practices at 1-800-255-7888 (TDD: 1-800-237-2515) for assistance.

Self Check is committed to protecting your privacy and has a Privacy Official responsible for ensuring that your information is collected, used, and disclosed in an authorized manner.
