The **Terms** apply to every individual and user, including attorneys and accredited representatives acting on behalf of a business, corporation, limited partnership, limited liability company, or other legal entity, and any employees of such entities, who accesses, uses, or creates an online account in USCIS' electronic immigration system and information technology resource, which includes the network, application, managed access developer portal, external drives that upload, process, store, receive or transmit information.

USCIS' electronic immigration system is an online, account-based system that allows users to submit requests for immigration benefits and certain immigration services, as well as view certain applications, petitions, and requests; receive electronic notification of USCIS notices and decisions; confirm employment eligibility and lock employment eligibility information against misuse; submit Freedom of Information Act (FOIA) and Privacy Act requests; receive real-time status updates on pending cases and work eligibility; and use defined roles to access certain technical specifications within designated interface portals. USCIS' electronic immigration system allows individuals, attorneys, accredited representatives, and other authorized users to conveniently and securely set up and manage online accounts; electronically submit certain applications, registrations, petitions, or requests and supporting documents; receive and respond to USCIS notices, requests for evidence, and decisions electronically; and pay filing fees, biometric services fees, registration fees, and immigrant fees. Periodically, USCIS will release additional functionality that will allow individuals, attorneys, and accredited representatives to perform additional functions online, which may include, paying service and processing fees, filing motions to reopen or reconsider, submitting program registrations, engaging in technical integration capabilities with programming interfaces, exposed data, and content management systems, paying administrative appeal fees, confirming employment eligibility, obtaining FOIA or Privacy Act responses, and requesting fee waivers online.

Case Details

You're authorized to work!

EMPLOYMENT AUTHORIZED

E-Verify Case Number: 2025331816146CD

✓ Congratulations!

Self Check confirmed that you are eligible to work in the United States. For more information on how we were able to confirm your work eligibility, read below.

i You have completed X of 4 Self Check verifications within your current 365-day period.

Work Authorization Details

Self Check compared the information you provided to U.S. government records and can confirm that, based on the information you provided, you are eligible to work in the United States.

If you are hired today by an E-Verify participating employer and you use the same documents and information provided, you will likely be instantly work authorized when your employer checks your information using E-Verify.

In the event that you are not instantly work authorized, please work with your employer to ensure that your information was entered correctly and, if necessary, follow the steps outlined by E-Verify to resolve any issues.

This doesn't mean that you are guaranteed to pass through E-Verify without issue. A number of things can happen between now and when a future employer checks your information using E-Verify that may cause you to get a mismatch. Those things include name changes, citizenship status changes, expiration of work authorization, or simple data entry error when your employer is entering your information into E-Verify. It is important that you keep your records up to date with the government to ensure an accurate employment verification process.

About Self Lock
