

UNITED STATES OF AMERICA
FEDERAL ENERGY REGULATORY COMMISSION

[Docket No. IC26-39-000]

COMMISSION INFORMATION COLLECTION ACTIVITIES (FERC-556);
COMMENT REQUEST; EXTENSION

(September 10, 2026)

AGENCY: Federal Energy Regulatory Commission.

ACTION: Notice of information collection and request for comments.

SUMMARY: In compliance with the requirements of the Paperwork Reduction Act of 1995, the Federal Energy Regulatory Commission (Commission or FERC) is soliciting public comment on the currently approved information collection FERC-556 (OMB Control No. 1902-0075) Certification of Qualifying Facility (QF) Status for a Small Power Production or Cogeneration Facility. The comment period ended on September 8, 2026, with no comments received. There were no changes to the reporting requirements.

DATES: Comments on the collection of information are due [**INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER**].

ADDRESSES: Send written comments on FERC-556 to OMB through https://www.reginfo.gov/public/do/PRA/icrPublicCommentRequest?ref_nbr=202608-1902-007. You can also visit <https://www.reginfo.gov/public/do/PRAMain> and use the drop-down under “Currently under Review” to select the “Federal Energy Regulatory Commission” where you can see the open opportunities to provide comments. Comments should be sent within 30 days of publication of this notice.

Please submit a copy of your comments to the Commission via email to

DataClearance@FERC.gov. You must specify Docket No. (IC26-39-000) and the FERC Information Collection number (FERC-556) in your email. If you are unable to file electronically, comments may be filed by USPS mail or by hand (including courier) delivery:

- Mail via U.S. Postal Service Only: Federal Energy Regulatory Commission, Secretary of the Commission, 888 First Street, N.E., Washington, DC 20426.
- All other delivery methods: Federal Energy Regulatory Commission, Secretary of the Commission, 12225 Wilkins Avenue, Rockville, MD 20852.

Docket: To view comments and issuances in this docket, please visit

<https://elibrary.ferc.gov/eLibrary/search>. Once there, you can also sign up for automatic notification of activity in this docket.

SUPPLEMENTARY INFORMATION:

Title: FERC-556, Certification of Qualifying Facility (QF) Status for a Small Power Production or Cogeneration Facility

OMB Control No.: 1902-0075

Type of Request: Three-year extension of the FERC-556 information collection requirements with no changes to the current reporting requirements.

Abstract: Form No. 556 is required to implement sections 201 and 210 of the Public Utility Regulatory Policies Act of 1978¹ (PURPA). FERC is authorized, under those sections, to encourage cogeneration and small power production and to prescribe such rules as necessary to carry out the statutory directives.

A primary statutory objective is efficient use of energy resources and facilities by electric utilities. One means of achieving this goal is to encourage production of electric power by cogeneration facilities, which make use of reject heat associated with commercial or industrial processes, and by small power production facilities, which use renewable resources and other wastes. PURPA encourages the development of small power production facilities and cogeneration facilities that meet certain technical and corporate criteria through establishment of various regulatory benefits. Facilities that meet these criteria are called Qualifying Facilities (QFs).

FERC's regulations in 18 CFR Part 292, as relevant here, specify: (a) the certification procedures which must be followed by owners or operators of small power production and cogeneration facilities; (b) the criteria which must be met; (c) the information which must be submitted to FERC in order to obtain qualifying status; and (d) the PURPA benefits which are available to QFs to encourage small power production and cogeneration.

¹ 16 U.S.C. 796 and 824i.

18 CFR Part 292 also exempts some QFs from certain corporate, accounting, reporting, and rate regulation requirements of the Federal Power Act,² certain state laws, and the Public Utility Holding Company Act of 2005.³

Type of Respondents: Facilities that are self-certifying their status as a cogenerator or small power producer or that are submitting an application for FERC certification of their status as a cogenerator or small power producer.

Estimate of Annual Burden: The Commission estimates the burden and cost for this information collection as follows:

FERC-556: Certification of Qualifying Facility Status for a Small Power Production or Cogeneration Facility							
Facility Type	Filing Type	Number of Respondents (1)	Number of Responses per Respondent (2)	Total Number of Responses (1)*(2) = (3)	Average Burden Hours & Cost Per Response⁴ (4)	Total Annual Burden Hours & Total Annual Cost (rounded) (3)*(4)=(5)	Cost per Respondent (\$) (rounded) (5)÷(1)
Cogeneration Facility > 1 MW ⁵	Self-certification	50	2.14	107	3.54 hrs; \$361.08	378.78 hrs; \$38,635.56	\$772.71

² 16 U.S.C. 791a, *et seq.*

³ 42 U.S.C. 16451 through 165463.

⁴ The Commission staff believes that industry is similarly situated in terms of wages and benefits. Therefore, cost estimates are based on FERC's 2026 average annual wage (and benefits) for a full-time employee of \$213,003 (or \$102.00/hour).

⁵ MW = megawatt.

Cogeneration Facility > 1 MW	Application for FERC certification	0	2.14	0	50 hrs; \$5,100	0 hrs; \$0	\$0
Small Power Production Facility > 1 MW	Self-certification	2,924	2.14	6,257.36	3.54 hrs; \$361.08	22,151.05 hrs; \$2,259,407.55	\$772.71
Small Power Production Facility > 1 MW	Application for FERC certification	0	2.14	0	50 hrs; \$5,100	0 hrs; \$0	\$0
Cogeneration and Small Power Production Facility ≤ 1 MW ⁶	Self-certification	1,422	2.14	3,043.08	3.54 hrs; \$361.08	10,772.50 hrs; \$1,098,795.33	\$772.71
TOTAL		4,396		9,407.44		33,302 hrs; \$3,396,837.66	

Comments: Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's

⁶ The regulation at 18 CFR 292.203(d) exempts small power production facilities and cogeneration facilities from self-certification if they have a net power production capacity of 1 MW or less. However, we are disclosing burdens for these filings because some facilities seek status as qualifying facilities regardless of their capacity.

estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Debbie-Anne A. Reese,
Secretary.
