Expiration Date March 31, 2027

EPA Form No. 9600-034

CHEMICAL INFORMATION SUBMISSION SYSTEM

TSCA Section 4

OK

The software includes embedded help files and a downloadable user manual to guide you through the Section 4 submission process.

The Toxic Substances Control Act gives EPA authority to issue data development regulations that require manufacturers and processors of existing chemicals to test their chemicals for health and environmental effects. EPA has the broad authority under the law to issue:

Information collection regulations that require the submission of health and safety studies which are known or available to those who manufacture, process, or distribute in commerce specified chemicals; and regulations designed to gather information from manufacturers and processor about production/import volumes, chemical uses and methods of disposal, and the extent to which people and the environment are exposed.

TSCA also requires EPA to develop regulations that establish import/export requirements for chemicals which are subject to certain requirements under TSCA.

Paperwork Reduction Act Notice

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2070-0033). Responses to this collection of information are mandatory under TSCA section 4. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be about 137 hours for the average response for a TSCA section 4 action on a per-chemical basis, not including CDX registration, and 0.53 hours per CDX registration. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden including through the use of automated collection techniques to the Director, Regulatory Support Division, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Authority

The Government Paperwork Elimination Act (GPEA) (44 U.S.C. 3504) provides that, when practicable, Federal organizations use electronic forms, electronic filings, and electronic signatures to conduct official business with the public. EPA's Cross-Media Electronic Reporting Regulation (CROMERR) (40 CFR part 3) (Ref. 2), provides that any requirement in title 40 of the CFR to submit a report directly to EPA can be satisfied with an electronic submission that meets certain conditions once the Agency published a document in the **Federal Register** announcing that EPA is prepared to receive certain documents in electronic form. For more information about CROMERR, go to <http://www.epa.gov/cromerr>.

OMB Control No. 2070-0033
Expiration Date 3/31/2027

Section 4 Orders

To start a Section 4 Order submission, select the appropriate submission type from the drop-down menu and click the Start New Submission button.

- If you are an individual company responding to Orders issued after February 2021, select the 'Identification' option.
- If you are an individual company responding to Orders issued before February 2021, select the 'Individual Initial Response to Order' option.
- If you are a consortium lead, select 'Consortium Initial Response to Order'.

To begin or edit an entry appearing in the 'Current Action' column, click the submission link. After completing that entry and submitting for that phase, the 'Current Action' column will be updated to the next phase of the process.

To access an entry that has already been submitted, click on the plus (+) in the 'Order/Consortium Number' column. Clicking on the lock icon (🔒) at the end of the row for each entry of the process will unlock that entry for amendment. After unlocking and updating, the unlocked entry of the Order response must be submitted to continue the process.

To submit an Extension Request, click the calendar icon (📅) in the Current Action Due Date column.

To download a Copy of Record, click on the plus (+) in the 'Order/Consortium Number' column, then click on the green arrow icon (➡) in the Action column.

To search for entries, use the Search text box above the table. Note: Search will only work for the current page

*After you provide a response to the "Current Action," it can take up to 30 minutes for the display to update for the "Current Action" and "Next Action" columns. Note that upon submitting a "Current Action" response that you should have received an email confirmation.

CBI Claims and Substantiation

A gray checkmark  indicates that substantiation answers are not needed for the specific chemical substance. A green checkmark  indicates that substantiation answers have been provided and is complete. A substance that is missing an icon indicates an incomplete set of substantiation answers.

Note: Click on a Chemical Identifier hyperlink to return to the chemical record to add or remove CBI claims. Otherwise, click on the plus sign (+) next to a chemical to substantiate its CBI claims.

Note: Please do not copy/paste CBI Substantiations from external applications to prevent issues with form validation, and result in not being able to complete the submission or migration process. If you need to copy/paste from an external application, paste the substantiations into Notepad, then copy from Notepad into the reporting application.

Data Element selected: **Submitting Official Information**

A. APPLICABLE ONLY TO GENERAL CBI CLAIMS

A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b)(3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.

- 1. Please specifically explain what harm to the competitive position of your business would be likely to result from the release of the information claimed as confidential. How would that harm be substantial? Why is the substantial harm to your competitive position likely (i.e., probable) to be caused by release of the information rather than just possible? If you claimed multiple types of information to be confidential (e.g. site information, exposure information, environmental release information, etc.), explain how disclosure of each type of information would be likely to cause substantial harm to the competitive position of your business.

☒ CBI

2980 characters remaining

- 2. Has your business taken precautions to protect the confidentiality of the disclosed information? If yes, please explain and identify the specific measures, including but not limited to internal controls, that your business has taken to protect the information claimed as confidential. If the same or similar information was previously reported to EPA as non-confidential (such as in an earlier version of this submission), please explain the circumstances of that prior submission and reasons for believing the information is nonetheless still confidential.

☐ Yes

☐ No

☐ CBI

2980 characters remaining

- 3A. Is any of the information claimed as confidential required to be publicly disclosed under any other Federal law? If yes, please explain.

☐ Yes

☐ No

Please ensure that your CBI claims are substantiated at the time of submission. If you fail to provide the appropriate substantiation at the time of submission, then the claim may be rejected and data may be published as non-CBI.

Substantiation Opt-Out ☐

Please note that substantiation is generally required to assert a CBI claim for this information. If you are asserting that this information is exempt from the substantiation requirement according to TSCA section 14(c)(2), please note the specific exemption and provide a brief explanation.

TSCA Certification

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate.

I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- i. taken reasonable measures to protect the confidentiality of the information;
- ii. determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law;
- iii. a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- iv. a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.

- 3A. Is any of the information claimed as confidential required to be publicly disclosed under any other Federal law? If yes, please explain.

☐ Yes

☐ No

Please ensure that your CBI claims are substantiated at the time of submission. If you fail to provide the appropriate substantiation at the time of submission, then the claim may be rejected and data may be published as non-CBI.

Substantiation Opt-Out ☐

Please note that substantiation is generally required to assert a CBI claim for this information. If you are asserting that this information is exempt from the substantiation requirement according to TSCA section 14(c)(2), please note the specific exemption and provide a brief explanation.

CBI Claims and Substantiation

A grey checkmark  indicates that substantiation answers are not needed for the specific chemical substance. A green checkmark  indicates that substantiation answers have been provided and is complete. A substance that is missing an icon indicates an incomplete set of substantiation answers.

Note: Click on a Chemical Identifier hyperlink to return to the chemical record to add or remove CBI claims. Otherwise, click on the plus sign (+) next to a chemical to substantiate its CBI claims.

Note: Please do not copy/paste CBI Substantiations from external applications to prevent issues with form validation, and result in not being able to complete the submission or migration process. If you need to copy/paste from an external application, paste the substantiations into Notepad, then copy from Notepad into the reporting application.

TSCA Certification

I hereby certify to the best of my knowledge and belief that all information entered on this form is complete and accurate.

I further certify that, pursuant to 15 U.S.C. § 2613(c), for all claims for protection for any confidential information made with this submission, all information submitted to substantiate such claims is true and correct, and that it is true and correct that the person submitting the claim has:

- i. taken reasonable measures to protect the confidentiality of the information;
- ii. determined that the information is not required to be disclosed or otherwise made available to the public under any other Federal law;
- iii. a reasonable basis to conclude that disclosure of the information is likely to cause substantial harm to the competitive position of the person; and
- iv. a reasonable basis to believe that the information is not readily discoverable through reverse engineering.

Any knowing and willful misrepresentation is subject to criminal penalty pursuant to 18 U.S.C. § 1001.

Expand	Data Element	Status	Action
	Contact Information (1/3)		

Data Element selected: **Submitting Official Information**

A. APPLICABLE ONLY TO GENERAL CBI CLAIMS

A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b)(3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.

- 1. Please specifically explain what harm to the competitive position of your business would be likely to result from the release of the information claimed as confidential. How would that harm be substantial? Why is the substantial harm to your competitive position likely (i.e., probable) to be caused by release of the information rather than just possible? If you claimed multiple types of information to be confidential (e.g. site information, exposure information, environmental release information, etc.), explain how disclosure of each type of information would be likely to cause substantial harm to the competitive position of your business.

☒ CBI

2980 characters remaining

- 2. Has your business taken precautions to protect the confidentiality of the disclosed information? If yes, please explain and identify the specific measures, including but not limited to internal controls, that your business has taken to protect the information claimed as confidential. If the same or similar information was previously reported to EPA as non-confidential (such as in an earlier version of this submission), please explain the circumstances of that prior submission and reasons for believing the information is nonetheless still confidential.

☐ Yes

☐ No

☐ CBI
