My company manufactures (other than imports) elemental mercury

CBI

☐ My company reported amount of manufactured mercury in the most recent Chemical Data Reporting (CDR) reporting cycle.

During the selected calendar year, my company manufactured (other than imported) a total of pounds of elemental mercury. ☐

During the selected calendar year, my company stored between and pounds of elemental mercury **on-site**.

My company does not store elemental mercury on-site. ☐

During the selected calendar year, my company stored between and pounds of elemental mercury **off-site**.

My company does not store elemental mercury off-site. ☐

During the selected calendar year, my company distributed pounds of elemental mercury into domestic commerce.

My company does not distribute elemental mercury. ☐

My company domestically distributed elemental mercury to the following industry: check all that apply

Additional Information:

My company imports elemental mercury to the United States

CBI

☐ My company reported amount of imported mercury in the most recent Chemical Data Reporting (CDR) reporting cycle.

During the selected calendar year, my company imported a total of pounds of elemental mercury. ☐

My company imported elemental mercury from the following country: check all that apply

During the selected calendar year, my company stored between and pounds of elemental mercury **on-site**.

My company does not store elemental mercury on-site. ☐

During the selected calendar year, my company stored between and pounds of elemental mercury **off-site**.

My company does not store elemental mercury off-site. ☐

During the selected calendar year, my company distributed pounds of elemental mercury into domestic commerce. ☐

My company does not distribute elemental mercury. ☐		
My company domestically distributed elemental mercury to the following industry: <i>check all that apply</i>		☐
Additional Information:		☐
My company manufactures (other than imports) elemental mercury-added products		CBI
☐ My company reported national sales data to the most recent Interstate Mercury Education and Reduction Clearinghouse (IMERC) reporting cycle.		
During the selected calendar year, my company used a total of pounds of elemental mercury in manufacturing elemental mercury-added products.		☐
During the selected calendar year, my company manufactured (other than imported) the following elemental mercury added products:		
Category	CBI	Subcategory
During the selected calendar year, my company distributed pounds of elemental mercury in products into domestic commerce. My company does not distribute elemental mercury. ☐		☐
My company domestically distributed mercury-added products to the following industry:		☐
During the selected calendar year, my company exported pounds of elemental mercury in mercury-added products. My company does not export elemental mercury. ☐		☐
My company exported mercury-added products to the following country: <i>check all that apply</i>		☐
Additional Information:		☐
My company imports elemental mercury-added products to the United States		CBI
☐ My company reported national sales data to the most recent Interstate Mercury Education & Reduction Clearinghouse (IMERC) reporting cycle.		
During the selected calendar year, my company imported a total of pounds of elemental mercury in mercury-added products.		☐

My company exported mercury-added products to the following country: <i>check all that apply</i>		☐
Additional Information:		☐
My company uses elemental mercury in a manufacturing process (other than manufacturing mercury compounds and/or manufacturing elemental mercury-added products)		CBI
During the selected calendar year, my company used a total of pounds of elemental mercury in a manufacturing process.		☐
During the selected calendar year, my company used elemental mercury in a manufacturing process in the following capacity for the following purposes:		
Process	CBI	Use(s)
During the selected calendar year, my company stored between and pounds of elemental mercury on-site . My company does not store elemental mercury on-site. ☐		☐
During the selected calendar year, my company stored between and pounds of elemental mercury off-site . My company does not store elemental mercury off-site. ☐		☐
During the selected calendar year, my company distributed into domestic commerce final products that may contain detectable amounts of elemental mercury as a result of a manufacturing process to the following Industries of Distribution: <i>check all that</i>		

apply

☐ My company does not domestically distribute final products that contain mercury as a result of this manufacturing process.

During the selected calendar year, my company exported final products that contain detectable amounts of elemental mercury as a result of a manufacturing process to the following Countries: *check all that apply*

☐ My company does not export final products that may contain elemental mercury as a result of this manufacturing process.

Additional Information:

☐

My company manufactures (other than imports) mercury compounds

CBI

☐ My company reported amount of manufactured (other than imported) mercury compounds in the most recent Chemical Data Reporting (CDR) reporting cycle.

During the selected calendar year, my company manufactured (other than imported) a total of pounds of mercury compounds.

☐

During the selected calendar year, my company manufactured the following mercury compounds:

Claim: Technical Contact Information			
Applicable Only to General CBI Claims	Yes	No	CBI
A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b)(3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.			
1. Please specifically explain what harm to the competitive position of your business would be likely to result from the release of the information claimed as confidential. How would that harm be substantial? Why is the substantial harm to your competitive position likely (i.e., probable) to be caused by release of the information rather than just possible? If you claimed multiple types of information to be confidential (e.g. site information, exposure information, environmental release information, etc.), explain how disclosure of each type of information would be likely to cause substantial harm to the competitive position of your business. test	X		
2. Has your business taken precautions to protect the confidentiality of the disclosed information? If yes, please explain and identify the specific measures, including but not limited to internal controls, that your business has taken to protect the information claimed as confidential. If the same or similar information was previously reported to EPA as non-confidential (such as in an earlier version of this submission), please explain the circumstances of that prior submission and reasons for believing the information is nonetheless still confidential. test	X		
3A. Is any of the information claimed as confidential required to be publicly disclosed under any other Federal law? If yes, please explain. test	X		
3B. Does any of the information claimed as confidential otherwise appear in any public documents, including (but not limited to) safety data sheets; advertising or promotional material; professional or trade publications; state, local, or Federal agency files; or any other media or publications available to the general public? If yes, please explain why the information should be treated as confidential. test	X		
3C. Has a patent been published for the chemical identity you claim confidential? What chemical identity information is not revealed by the patent? How is release of that specific information likely to cause substantial competitive harm? And failure to explain this harm may lead to denial of your confidentiality claim. test	X		
4. Is the claim of confidentiality intended to last less than 10 years (see TSCA section 14(e)(1)(B))? If yes, please indicate the number of years (between 1-10 years) or the specific date after which the claim is withdrawn. test	X		
5. Has EPA, another federal agency, or court made any confidentiality determination regarding information associated with this chemical substance? If yes, please provide the circumstances associated with the prior determination, whether the information was found to be entitled to confidential treatment, the entity that made the decision, and the date of the determination. test	X
