

Foreign Purchaser Acknowledgement Statement (FPAS) Quick Guide

The United States Environmental Protection Agency (EPA) Office of Pesticide Programs (OPP) developed the Foreign Purchaser Acknowledgment Statement (PFAS) application to provide registrants an electronic option to create and submit 'EPA Form 9600-026 – FPAS via the Pesticide Submission Portal (PSP) in the Central Data Exchange (CDX).

This quick reference guide explains how to electronically submit a FPAS using the PSP. This guide assumes a user has a CDX account and is registered for the PSP program service. Please refer to the [PSP Registration Guide](#) for information on how to obtain a CDX account and register for PSP.

Navigation: Upon logging into the Central Data Exchange (CDX), users are navigated to the 'MyCDX' screen. Select either the 'Primary Submitter' or 'Authorized Agent' role for the 'PSP: Pesticide Submission Portal (Company Number Requests)' Program Service to access the Pesticide Submission Portal (PSP).

Note: If the selected role is associated with multiple organizations, chose the correct organization and select the 'Proceed' button. Otherwise, navigation directly into PSP will occur.

Navigation: Enter a passphrase in the ‘New Passphrase’ field that is at least eight (8) characters long and does **not** contain special characters. Next, enter the same passphrase in the ‘Confirm Passphrase’ field. Finally, select the ‘Next’ button to navigate to the ‘Package Information’ screen.

Important: The user who creates a submission is responsible for remembering the passphrase and only distributing it to authorized persons. **OPP is unable to retrieve a passphrase or unlock a package if the passphrase is lost or forgotten.** A new submission will need to be created when a passphrase is lost or forgotten. OPP suggests that each organization use the same passphrase for all submissions. A shared passphrase ensures that someone from the same organization can retrieve and/or complete the submission when the package creator is unavailable. A ‘Passphrase Hint’ may be created to assist with passphrase recall.
