Please dissolve the FHA for ongoing 14th amendment violations and discrimination against Americans on the basis of national origin. Non-U.S. citizens can receive FHA loans as long as they are permanent legal residents and have lawful residency in the U.S. Non-U.S. citizens who are approved for an FHA loan will be given the same loan conditions as regular U.S. citizens. Non-citizens will need to provide proof of eligibility to work in the United States as well as a valid social security number.

If you are a Green Card (Form I-551) holder or a non-permanent resident with a valid work visa (Forms E1, E2, H1B, H2A, H2B, H3, L1 and G1-G4) you should be able to obtain a government-backed loan. This is unacceptable. The housing market is the most unaffordable it's been for decades, and federal loans are being given to people who do not understand English, who provide false names, who provide false identifying documents and who cannot prove who they are. For a non-permanent resident to apply for an FHA loan, they must provide this specific information in their application:
The property will be the borrower's principal residence
The borrower has a valid social security number, and
The borrower is eligible to work in the United States, as evidenced by an Employment authorization document issued by the federal government. All of these documents are forged en masse. Please eliminate every single one of these loans. More than 75% of American homes are UNAFFORDABLE to the average American! Visa holders should not be allowed to displace earnest American buyers. These loans are contributing to the housing crisis. Please end them.
