Privacy Act Statement

Authority: The collection of this information is authorized under the Magnuson-Stevens Fishery Conservation and Management Act, 16 U.S.C 1801 et seq.

Purpose: The Magnuson-Stevens Act requires that conservation and management measures must prevent over fishing while achieving, on a continuing basis, the optimum yield from each fishery. Vessel logbooks are essential tools in the management of fishery resources. Section 303(a)(5) of the Magnuson-Stevens Act specifically identifies the kinds of data to be collected for fishery management plans (FMPs).

Routine Uses: The Department will use this information for effective fishery management. Disclosure of this information is permitted under the Privacy Act of 1974 (5 U.S.C. Section 552a), to be shared within NMFS offices, in order to coordinate monitoring and management of sustainability of fisheries and protected resources, as well as with the applicable State or Regional Marine Fisheries Commissions and International Organizations.

Disclosure of this information is also subject to all of the published routine uses as identified in the COMMERCE/NOAA-6, Fishermen's Statistical Data.

Disclosure: Submission is mandatory for those persons falling under the requirements of 50 CFR 665.14. If the information is not provided, permit status may be affected.

Paperwork Reduction Act Information

A Federal agency may not conduct or sponsor, and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with an information collection subject to the requirements of the Paperwork Reduction Act of 1995 unless the information collection has a currently valid OMB Control Number. The approved OMB Control Number for this information collection is 0648-0664. Without this approval, we could not conduct this information collection. Public reporting for this information collection is estimated to be approximately 15 minutes per permit and 20 minutes per daily fishing log, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the information collection. All responses to this information collection are mandatory to obtain benefits pursuant 50 CFR Part 665. This information collection is required to confirm the identity of the applicant, determine permit eligibility, and monitor fishing to determine whether changes in management are needed to sustain the productivity of the stocks or to address economic issues. Send comments regarding this burden estimate or any other aspect of this information collection, including suggestions for reducing this burden to the National Marine Fisheries Service (NMFS), Pacific Islands Regional Office at 1845 Wasp Blvd. 176, Honolulu, HI 9681. For more information call (808) 725-5000.

Vessel Reporting Requirements

The operator of any fishing vessel operating under a Federal Marine National Monument Fishing permit must maintain onboard an accurate and complete record of catch, effort, and other data on report forms provided by the Regional Administrator, and must record the information on the logsheet forms within 24 hours of the completion of each fishing day. Each logsheet must be signed and dated by the fishing vessel operator. The original logsheet must be submitted to the National Marine Fisheries Service within 30 days of the end of each fishing trip. **Submit daily fishing logsheet reports to: NOAA Inouye Regional Center, NMFS/PIFSC/Fishery Monitoring Branch, 1845 Wasp Blvd., Building 176, Honolulu, HI 96818. For more information call (808) 725-5325.**
