a reasonable strategy for the outlay of funds consistent with the project work plan. Regional offices may use the outlay rate information contained in ote accelerated outlays to the maximum extent practicable.

Program Area	NPM	Activity #	'15 - '17 Grant Guidance Activity	Activity Type	Work Plan Activity Description (Outputs)	Due Date	Status	Describe Work Plan Activity Accomplishment (include any issues or innovations, ifappropriate)	Significant Issues/ Innovations
Basic Pesticide Program	OPP & OECA	**01.00.01.0**	Complete administrative/management, fiduciary and reporting requirements associated with this cooperative agreement.	Required					None
Basic Pesticide Program	OPP & OECA	**01.00.02.0**	Build or maintain staff and management expertise on pesticide program issues and enforcement (e.g. attend training opportunities through PREP, PIRT, in-service training, etc. or other appropriate activities).	Required					None
Basic Pesticide Program	OPP & OECA	**01.00.03.0**	Respond to pesticide inquiries, concerns, tips, and complaints from the public.	Required					None
Basic Pesticide Program	OPP	**01.01.01.0**	Provide outreach, communication, and training as appropriate as a result of new emerging issues, rules, regulations, and registration and registration review decisions.	Required					None
Basic Pesticide Program	OPP	**01.01.02.0**	Report information on all known or suspected pesticide incidents involving pollinators to OPP (beekill@epa.gov) with a copy to the regional office.	Required					None
Basic Pesticide Program	OECA	**01.02.01.0**	Project inspection numbers and report various inspection and enforcement accomplishments. The 5700 forms, ES Inspections Report, and performance measures (when final) forms contained in the FIFRA template may be used for this purpose.	Required					None
Basic Pesticide Program	OECA	**01.02.02.0**	Maintain adequate pesticide laws, rules, and associated implementation procedures.	Required					None
Basic Pesticide Program	OECA	**01.02.03.0**	Provide outreach and compliance assistance.	Required					None
Basic Pesticide Program	OECA	**01.02.04.0**	Draft, modify, or maintain a priority setting plan for inspections & investigations, addressing grantee and EPA-identified priorities (see Appendix 4, Enforcement Priority Setting Guidance; to be replaced by Compliance Monitoring Strategy when finalized).	Required					None
Basic Pesticide Program	OECA	**01.02.05.0**	During use inspections, monitor compliance with the label, including any ESA bulletins, if applicable.	Required					None
Basic Pesticide Program	OECA	**01.02.06.0**	Develop/maintain a searchable inspection/investigation and case tracking system and track all inspections/investigations and cases.	Required					None
Basic Pesticide Program	OECA	**01.02.07.0**	Ensure a minimum of one state employee obtains and maintains an EPA inspector's credential. Where state authority is inappropriate or inadequate, or at EPA's request, conduct FIFRA inspections with EPA credentials, according to EPA procedures and guidance documents.	Required					None
Basic Pesticide Program	OECA	**01.02.08.0**	Refer all inspections conducted with federal credentials to the region.	Required					None
Basic Pesticide Program	OECA	**01.02.09.0**	Refer FIFRA cases to the region for enforcement consideration according to a mutually identified referral priority scheme.	Required					None
Basic Pesticide Program	OECA	**01.02.10.0**	Maintain and follow a matrix to develop and issue enforcement actions.	Required					None
Basic Pesticide Program	OECA	**01.02.11.0**	Follow up on significant or grantee and region agreed upon pesticide incidents referred by EPA as required by FIFRA Sections 26 and 27.	Required					None
Basic Pesticide Program	OECA	**01.02.12.0**	Conduct inspections consistent with the FIFRA Inspection Manual including collection of the appropriate amount of sale and distribution records as discussed in Chapter 6 "Product Sampling".	Required					None
Basic Pesticide Program	OECA	**01.02.13.0**	Maintain and follow a Quality Management Plan for the overall pesticide enforcement program.	Required					None
Basic Pesticide Program	OECA	**01.02.14.0**	Maintain and follow Quality Assurance Project Plan(s) for pesticide sample collection and analysis.	Required					None
Basic Pesticide Program	OECA	**01.02.15.0**	Maintain access to adequate laboratory support capacity.	Required					None
Basic Pesticide Program	OECA	**01.02.16.0**	Assist EPA in enforcing regulatory actions and monitoring Section 18, Section 24(c), and Experimental Use Permits.	Required					None
Worker Safety: Worker Protection Standard	OPP	**02.01.01.0**	Implement Part 170 worker protection standard (WPS) rule requirements and carry out program implementation requirements.	Required					None
Worker Safety: Worker Protection Standard	OPP	**02.01.02.0**	Conduct WPS-related Outreach and Education. This includes communicating existing requirements to the regulated community and informing co-regulators, the regulated community, and other program stakeholders of any proposed changes or new requirements.	Required					None
Worker Safety: Worker Protection Standard	OPP	**02.01.03.0**	Support WPS worker & handler training.	Required					None

Program Area	NPM	Activity #	'15 - '17 Grant Guidance Activity	Activity Type	Work Plan Activity Description (Outputs)	Due Date	Status	Describe Work Plan Activity Accomplishment (include any issues or innovations, ifappropriate)	Significant Issues/ Innovations
Worker Safety: Worker Protection Standard	OPP	**02.01.04.0**	Assure mechanisms and procedures are in place to enable coordination and follow-up on reports of occupational pesticide exposure, incidents or illnesses that may be related to pesticide use/misuse or WPS violations.	Required					None
Worker Safety: Worker Protection Standard	OECA	**02.02.01.0**	Monitor compliance with the WPS requirements associated with use of high risk pesticides, high exposure scenarios or repeat offenders. Include activities that support both WPS and product use compliance.	Required					None
Worker Safety: Worker Protection Standard	OECA	**02.02.02.0**	Grantees may refer potential violations to the regional office for appropriate action.	Required					
Worker Safety: Pesticide Applicator Certification	OPP	**03.01.01.0**	Implement pesticide applicator certification programs in accordance with Part 171 and EPA approved certification plans. This includes communicating information about proposed rule changes that may be published for comment to co-regulators, the regulated community, and other program stakeholders.	Required					None
Worker Safety: Pesticide Applicator Certification	OPP	**03.01.02.0**	Meet state/and tribal certification plan requirements for plan maintenance a	Required					None
Worker Safety: Pesticide Applicator Certification	OPP	**03.01.03.0**	Monitor applicator training for quality assurance.	Required					None
Worker Safety: Pesticide Applicator Certification	OECA	**03.02.01.0**	Monitor compliance with the pesticide applicator certification requirements. Focus on sale/distribution of restricted use pesticides (RUPs) to applicators. One example is the fumigation sector(s) of concern.	Required					None
Container Containment	OPP	**04.01.01.0**	Provide technical assistance for the regulated community, as appropriate.	Required					None
Container Containment	OPP	**04.01.02.0**	Alert EPA to changes in state regulations and tribal codes.	Required					None
Container Containment	OECA	**04.02.01.0**	Monitor compliance with C/C requirements. Focus on product and user compliance with special emphasis on agricultural retailers/distributors that repackage pesticides into refillable containers, as well as RUP and Tox 1 category products.	Required					None
Soil Fumigation & Soil Fumigants	OPP	**05.01.01.0**	For High Use States only (CA, WA, ID, OR, WI, MI, FL, MN, NC, VA, AZ, NV, GA, CO, ND) As appropriate, provide technical assistance, education, and outreach, to the regulated community.	Required					None
Soil Fumigation & Soil Fumigants	OECA	**05.02.01.0**	Monitor compliance with soil fumigation labels. Focus on product and user compliance with special emphasis on new label requirements.	Required					None
Pesticides in Water	OPP	**06.01.01.0**	For pesticides scheduled for registration review, submit existing water quality monitoring data not already provided to EPA, housed in the USGS National Water Information System (NWIS), entered into EPA's STORET Data Warehouse, or otherwise readily/publicly accessible to the EPA via the web. See OPP Guidance for Submission of State and Tribal Water Quality Monitoring Data, Appendix 5.	Required					None
Pesticides in Water	OPP	**06.01.02.0**	Evaluate: Identify ***pesticides of concern*** (POC) by evaluating a list of ***pesticides of interest*** (pesticides which have the potential to threaten local resources) to determine if those pesticides are found at concentration levels locally that are approaching or exceeding ***reference points*** and therefore are a threat to local water quality. The base list of pesticides of interest can be found in Appendix 6.	Required					None
Pesticides in Water	OPP	**06.01.03.0**	Manage: Actively manage ***pesticides of concern*** beyond the label to reduce or prevent further contamination of local water resources.	Required					None
Pesticides in Water	OPP	**06.01.04.0**	Demonstrate Progress: Show the management strategy has been effective in reducing or maintaining concentrations below ***reference points***.	Required					None
Pesticides in Water	OPP	**06.01.05.0**	Re-evaluate pesticides if there is new information that could affect risk (e.g., new hazard data, significant increase in use, a new OPP risk assessment or registration decision involving a water quality concern).	Required					None
Pesticides in Water	OPP	**06.01.06.0**	Report progress of activities in 06.01.02 – 06.01.05 in POINTS.	Required					None
Pesticides in Water	OPP	**06.01.07.0**	Where appropriate, consult with and/or coordinate prevention and protection of water resources with other agencies responsible for water resource protection.	Required					None
Pesticides in Water	OECA	**06.02.01.0**	Monitor compliance with pesticide water quality risk mitigation measures, and respond to pesticide water contamination events especially where water quality standards or other reference points are threatened.	Required					None

Program Area	NPM	Activity #	'15 - '17 Grant Guidance Activity	Activity Type	Work Plan Activity Description (Outputs)	Due Date	Status	Describe Work Plan Activity Accomplishment (include any issues or innovations, ifappropriate)	Significant Issues/ Innovations
Endangered Species Protection	OPP	**07.01.01.0**	Provide outreach and education on the Endangered Species Protection Program to current and potential pesticide users and pesticide inspectors.	Picklist					None
Endangered Species Protection	OPP	**07.01.02.0**	Provide risk assessment and risk mitigation support using using EPA's stakeho	Picklist					None
Endangered Species Protection	OPP	**07.01.02.1**	Provide information such as crop data, pesticide use data, and species location data to OPP for use in listed species-specific risk assessments for upcoming registration review cases.	Picklist					None
Endangered Species Protection	OPP	**07.01.02.2**	Comment on exposure assumptions used in risk assessments.	Picklist					None
Endangered Species Protection	OPP	**07.01.02.3**	Comment on the feasibility of proposed, listed species-specific mitigation measures during OPP's standard processes of registration and registration review.	Picklist					None
Endangered Species Protection	OPP	**07.01.02.4**	Review draft bulletins, should any be developed in a state's area.	Picklist					None
Endangered Species Protection	OPP	**07.01.03.0**	Establish and maintain relationships with local and regional fish and wildlife agencies.	Picklist					None
Endangered Species Protection	OPP	**07.01.04.0**	Work with certification and training staff and cooperative extension services to provide endangered species information for pesticide applicator training.	Picklist					None
Endangered Species Protection	OECA	**07.02.01.0**	Monitor compliance with Endangered Species Bulletins, and track and report compliance information on endangered species inspections as described in Appendix 1, Number 7, Endangered Species Protection, Section D (Reporting Requirements) and E (Performance Measures), on page 41 of the Guidance.	Picklist					None
Bed Bugs	OPP	**08.01.01.0**	Provide education, outreach and technical assistance on pesticide and integrated pest management control approaches, and guidance for responses to bed bug infestations.	Picklist					None
Bed Bugs	OECA	**08.02.01.0**	Monitor product and user compliance. Focus on illegal claims and illegal use of products not registered for control of bed bugs with special emphasis on RUP and Tox 1 category products.	Picklist					None
Pollinator Protection	OPP	**09.01.01.0**	Establish relationships with federal, state, tribal and local agencies, beekeeper organizations, grower organizations (*e.g.*, commodity groups), crop advisors, pesticide manufacturers (registrants), and other stakeholder groups within the region to assist where needed in combined pollinator protection activities.	Picklist					None
Pollinator Protection	OPP	**09.01.02.0**	Provide continuing educational opportunities and outreach to keep growers, applicators, and handlers up-to-date on the most recent methods to protect pollinators, such as IPM, BMPs, or softer applications.	Picklist					None
Pollinator Protection	OECA	**09.02.01.0**	Monitor user compliance with pollinator protection label language. The EPA	Picklist					None
Pollinator Protection	OECA	**09.02.02.0**	Conduct inspections and take enforcement actions directed at detecting and stopping distribution of unregistered or misbranded pesticides that could adversely affect pollinators and/or the quality of hive products.	Picklist					None
School Integrated Pest Management	OPP	**10.01.01.0**	Provide education, outreach and/or training on School IPM approaches to public schools or educational organizations working with public schools.	Picklist					None
School Integrated Pest Management	OPP	**10.01.02.0**	Forge partnerships with other agencies and/or organizations to promote adoption of IPM in public schools.	Picklist					None
Spray Drift	OPP	**11.01.01.0**	Conduct education and outreach activities that increase awareness and adoption of spray drift reduction techniques and technologies.	Picklist					None
Spray Drift	OPP	**11.01.02.0**	Gather spray draft incident data from the past 2-3 years to form an incident baseline and then gather additional incident data during the grant period.	Picklist					None
Spray Drift	OPP	**11.01.03.0**	Report gathered data annually in a separate file attached to the end-of-year report.	Picklist					
Spray Drift	OECA	**11.02.01.0**	Monitor compliance with spray drift label language and report investigation findings as part of year–end reporting.	Picklist					None
State and Tribal Coordination and Communication	OPP	**12.01.01.0**	When conducting training of state staff, offer tribal pesticide staff an opportunity to participate if space is available or can be made available.	Picklist					None
State and Tribal Coordination and Communication	OPP	**12.01.02.0**	Offer tribes an opportunity to ride along with state pesticide inspectors as training for tribal pesticide inspectors.	Picklist					None
State and Tribal Coordination and Communication	OPP	**12.01.03.0**	Share information on tips, complaints, violators, and/or incidents that may be relevant in Indian country.	Picklist					None

Program Area	*NPM*	*Activity #*	*'15 - '17 Grant Guidance Activity*	*Activity Type*	*Work Plan Activity Description (Outputs)*	*Due Date*	*Status*	*Describe Work Plan Activity Accomplishment (include any issues or innovations, ifappropriate)*	*Significant Issues/ Innovations*
State and Tribal Coordination and Communication	OPP	**12.01.04.0**	Let tribes know when the state issues a FIFRA Section 24(c) or applies for a Section 18.	Picklist					None
State and Tribal Coordination and Communication	OPP	**12.01.05.0**	Provide lab support to tribes.	Picklist					None
State and Tribal Coordination and Communication	OPP	**12.01.06.0**	Other negotiated activities as appropriate.	Picklist					None
State and Tribal Coordination and Communication	OECA	**12.02.01.0**	Improve tribal capacity to enforce pesticide programs.	Picklist					None
Supplemental Distributors	OECA	**13.02.01.0**	Monitor compliance of distributor products. Focus on product integrity, including product composition, product labeling, and registration requirements under FIFRA. Place special emphasis on (1) registrants, producers and supplemental distributors that handle large numbers of distributor products, (2) registrants, producers and supplemental distributors with a history of noncompliance with distributor products, (3) distributor products that are high risk (Tox 1 category and RUP products) and (4) distributor products making public health claims on the labeling.	Picklist					None
Contract Manufacturers	OECA	**14.02.01.0**	Monitor compliance with contract manufacturing requirements. Focus on one or more of the following: manufacturers of disinfectants, RUPs, or Tox 1 category products, and manufacturers with a prior history of FIFRA noncompliance.	Picklist					None
Imports	OECA	**15.02.01.0**	Assist regions when necessary to monitor movement of imported pesticides within state or tribal lands.	Picklist					None
National Data System	OECA	**16.02.01.0**	Work with OECA to determine what data to collect and how to utilize the data to enhance the effectiveness of the National Pesticide Program and illustrate the performance of the national pesticide compliance program.	Picklist					None
Supplemental/ Special Project	OPP	**17.01.01.0**	Supplemental Activity (OPP)	Optional					None
Supplemental/ Special Project	OECA	**17.02.01.0**	Supplemental Activity (OECA)	Optional					
Regional Guidance Activity	OPP	**18.01.01.0**	Regional Activity (OPP)	Optional					None
Regional Guidance Activity	OECA	**18.02.01.0**	Regional Guidance Activity (OECA)	Optional					None

RPA#	Required Program Areas	Required Type	EPA Program Outcome	Grantee Outcome	EPA Goal
1	Basic Pesticide Program	Required	Maintain a basic level of pesticide program implementation, compliance assistance, and enforcement to ensure a viable pesticide regulatory and enforcement program, achieve environmental results, and maximize success with the Agency's performance measures.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
2	Worker Safety: Worker Protection Standard	Required	Prevent or reduce occupational pesticide exposures, incidents and illnesses from pesticides, especially ones that pose high risks or high exposures to workers.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
3	Worker Safety: Pesticide Applicator Certification	Required	Prevent or reduce pesticide exposures and incidents to humans and the environment by increasing the competence and expertise of applicators/handlers of restricted use pesticides.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
4	Container Containment	Required	Prevent or reduce pesticide exposures to humans and the environment due to damaged pesticide containers and pesticide spills or releases.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
5	Soil Fumigation & Soil Fumigants	Required	Prevent or reduce incidents resulting from soil fumigation exposures.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
6	Pesticides in Water	Required	Ensure that pesticides do not adversely affect the nation's water resources.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
7	Endangered Species Protection	Pick List	Limit potential effects from pesticide use to listed species, while at the same time not placing undue burden on agriculture or other pesticide users.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
8	Bed Bugs	Pick List	Minimize the potential for pesticide misuse/overuse and spread of bed bug infestations by increasing understanding of bed bug prevention and control approaches, and ensuring compliance with accepted control approaches.		EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.

9	Pollinator Protection	Pick List	Ensure pollinators are protected from adverse effects of pesticide exposure.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
10	School Integrated Pest Management	Pick List	Decrease exposure of children in public schools (grades K-12) to pests and pesticides through increased adoption of verifiable and ongoing school Integrated Pest Management (IPM) programs.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety.
11	Spray Drift	Pick List	Reduce spray drift incidents by increasing awareness and adoption of spray drift reduction techniques and technologies.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
12	State and Tribal Coordination and Communication	Pick List	Where appropriate, support tribal pesticide program capacity building and efficient use of state resources by improving coordination, communication and cooperation between tribes and states to advance pesticide program implementation and increase program efficiencies.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
13	Supplemental Distributors	Pick List	Ensure that distributor products are properly registered, formulated and labeled.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
14	Contract Manufacturers	Pick List	Reduce instances of illegal manufacture or mislabeling of products manufactured under contract.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
15	Imports	Pick List	Eliminate the distribution of unregistered, misbranded, or adulterated imported pesticides.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
16	National Data System	Pick List	Collect detailed enforcement data on a national level from grantees to better target pesticide violations and to explain the performance of the national program.	EPA Strategic Plan Goal 4: Ensuring the Safety of Chemicals and Preventing Pollution, Objective 1: Ensure Chemical Safety. EPA Strategic Plan Goal 5: Enforcing Environmental Laws.
17	Supplemental/ Special Project	Optional		
18	Regional Guidance Activity	Optional

United States Environmental Protection Agency

Endangered Species Inspections Report*

State/Tribe: 0
Fiscal Year:
Reporting Period:

	Number	Comment**
Total number of use and for cause inspections that involved the use of a pesticide product that refers the applicator to obtain and follow the instructions of an Endangered Species Bulletin		
Number of use and for cause inspections where the pesticide applicator was alleged to be in violation of Endangered Species labeling requirements, including any applicable Bulletin		

* This information is required for all grantees whether or not Endangered Species is selected from the pick-list.

** To help OPP assess the effectiveness of endangered species risk mitigation requirements and Endangered Species bulletins, please include in this comment field some information on the pesticide products and bulletin provisions that were violated.

United States Environmental Protection Agency

PESTICIDE ENFORCEMENT PERFORMANCE M

March 2015

State/Tribe:

Fiscal Year:

Reporting Period:

STRATEGIC GOAL 1: PROTECTION OF HUMAN HEALTH – OCCUPATIONAL USERS[1]

MEASURE 1A: COMPLIANCE WITH WPS REGULATIONS

Measure Description: The intent of this measure is to determine how well agricultural employers/operators (which includes workers and handlers as appropriate) follow the WPS regulations. The type of violation is not required to be reported.

Reporting Criteria:

Number of WPS inspections[2] and investigations[3] (Tier 1 and 2) conducted during the reporting period

Number of WPS violations identified[4] during the reporting period

Number of enforcement actions[5] taken for WPS violations (during the reporting period)

Definitions:

[1]Occupational User

An occupational user is an applicator or person who mixes/loads/transfers pesticides for application to the property of others for compensation. The term includes "for-hire" applicators:

a) those who are hired to provide pesticide application services on another person's private or commercial property;

b) those who, as part of their employment, apply pesticides on the property of their employer;

c) persons who assist in the application of any pesticide, or

d) anyone defined as a handler under 40 CFR, Part 170.

[2]Inspection

An inspection is the process by which an inspector collects information in order to determine compliance of a regulated entity. For purposes of definition, inspections are considered a routine activity.

[3]Investigation
For purposes of definition, investigations are non-routine, for-cause activities in response to a complaint or tip that involves a suspected violation.

[4]Violation
Violations are those infractions of state, tribal or federal law that are reported, would be reported, or are reportable to EPA on the 5700-33H WPS Enforcement Accomplishment Report form. Violations may need to be reported in more than one Measure.

[5]Enforcement Actions are those reported on the 5700-33H WPS form. Enforcement Actions may need to be reported in more than one Measure.

MEASURE 1B: COMPLIANCE WITH APPLICATOR CERTIFICATION REQUIREMENTS[6] AS REQUIRED BY STATE/TRIBAL/FEDERAL LAW
Measure Description: The intent of this measure is to determine the compliance of pesticide applicators[7] with certification requirements[6] by considering: 1) the number of applicators found to be in compliance at the time of the inspection; and 2) the number of applicators who came into compliance after an inspection by obtaining certification due to state/tribal enforcement response.

Reporting Criteria:
Number of inspected applicators who are required to comply with certification requirements

Number of uncertified applicators[8] found during those inspections that should have been certified

Number of uncertified applicators[8] obtaining certification, discontinued making applications where certification was required, or were brought into compliance [9] (during the reporting period[10])

Definitions:

[6]Certification Requirements
While FIFRA specifically spells out the basic categories and type of certification a pesticide applicator should possess, states and tribes with accepted certification plans typically administer more stringent regulations, thus, states/tribes are to use their local certification plan to determine what standards to use for applicators (i.e. state/tribal certification requirements should be used to determine applicator compliance).

[7]Applicator
An applicator is an individual, not a company, certified and/or licensed by the state/tribe to apply pesticides.

[8]Uncertified applicators
The number of pesticide applicators who were encountered by the state's/tribe's enforcement program and were not certified applicators, but should have been for the type of work being performed. This would include someone who is certified/licensed, but is working in a type of work their current category or categories do not allow.

[9]Applicators obtaining certification, discontinued making applications where certification was required, or were brought into compliance
This terms applies to uncertified applicators, as determined by state/tribal laws or regulations, who subsequently became compliant by obtaining proper certification, ceased making pesticide applications requiring certification, or otherwise demonstrated satisfactory regulatory compliance with state/tribal certification rules.

[10]During the reporting period
Due to the inherent delay between the time an inspection/investigation is recorded initially and the eventual enforcement response, violations and enforcement actions may not be reportable in the same period as the inspection/investigation. For that reason, the reportable violations found or enforcement actions taken during the reporting period are reported whether or not the inspection/investigation was actually conducted in the same period.

STRATEGIC GOAL 2: PROTECTION OF HUMAN HEALTH: ALL PEOPLE[11] (PEOPLE WHO GET EXPOSED TO PESTICIDES)

MEASURE 2: COMPLIANCE WITH FOOD AND DRINKING WATER PROTECTION REGULATIONS
Measure Description: The intent of this measure is to determine compliance with *pesticide label language* intended to protect human health from the harmful effects of pesticides in the diet.

Reporting Criteria:
Number of use inspections and use complaint investigations conducted

Number of use cases[12] that identified *label language* violations related to food or drinking water (E.g. misuse in dining/eating areas; drift onto food crops; mix/load within buffer areas, etc.).

Definitions:

[11]All People

Any person that is or could be impacted by the use of pesticides, *other than* those exposures encountered as Occupational Users[1].

[12]Use Cases

Specific to this measure only, a use case is one in which the inspection involved a pesticide use observation or a complaint investigation of a pesticide use. The determination of whether or not a label provision has been violated is made by the state/tribal case reviewer, after which it is then considered reportable for the measure. Routine records inspections or complaints not involving use are excluded.

STRATEGIC GOAL 3: PROTECTION OF ENVIRONMENTAL MEDIA[13]: WATER, SOIL AND NON-TARGET SPECIES[14]

MEASURE 3: COMPLIANCE WITH LABEL LANGUAGE FOR PROTECTION OF WATER, SOIL AND NON-TARGET SPECIES[14]

Measure Description: The intent of this measure is to determine how well pesticide applicators protect environmental resources by following pesticide label language intended to protect those resources.

Reporting Criteria:

Number of inspections and investigations that involved environmental media[13] by type of media (see below).
Number involving water resources
Number involving soil resources

Number involving non-target species[14]

Number of cases identifying violations of label language regarding protection of the following environmental media[13] (This can include cases where no damage is seen but the state/tribe finds chemical residues which they consider a label violation.):
Number with water resource violations[15]
Number with soil resource violations
Number with non-target species[14] violations

Number of enforcement actions taken by the state/tribe for violations of label language regarding protection of the following environmental media[13]:
Number with water resource enforcement actions
Number with soil resource enforcement actions
Number with non-target species[14] enforcement actions

Definitions:

[13]Environmental Media

The natural environment in which we live, including water, soil and non-target species (including endangered species), but does not include inanimate objects such as buildings, equipment, vehicles, or roads. See Non-Target Species definition below.

[14]Non-Target Species

Traditional enforcement policy has dictated that non-target species are any species not biologically similar to those listed on the pesticide label, however, expanding the definition that broadly dilutes the meaningfulness of the measure. Therefore, for purposes of this measure, Non-Target Species are those that are determined to have come into contact with a pesticide when the label prohibited such exposure.

[15]Water Resource Violations

Detections of pesticide residues which exceed existing federal and/or state/tribal surface, ground or drinking water standards, adopted drinking water advisory levels, or adopted environmental or human health guidelines.

STRATEGIC GOAL 4: ASSURING THE AVAILABILITY OF EFFECTIVE PESTICIDES IN THE MARKETPLACE

MEASURE 4: COMPLIANCE WITH FIFRA REGISTRATION REQUIREMENTS[16]

Measure Description: The intent of this measure is to assess the degree to which unregistered, misbranded or misformulated pesticides are found in the marketplace. Marketplaces include both brick-and-mortar facilities and internet websites, so long as the labels reviewed and enforcement actions taken are accounted for in the state/tribal enforcement program. It is important to note that only labels reviewed as a part of an inspection or investigation for enforcement purposes are to be reported, not the labels reviewed annually by state/tribal registration programs.

Reporting Criteria:

Number of inspections[2] and investigations[3] involving review of pesticide labels for registration status[16], misbranding[17] or composition differing[18] from that provided on the label (includes internet investigations if compliance can be determined, but NOT routine registration reviews).

Number of inspections[2] and investigations[3] involving violations of registration requirements[16] which were subject to the state/tribe enforcement response policy, but not referred to EPA.

Number of inspections[2] and investigations[3] referred to EPA for further review due to potential registration, misbranding[17] or composition differs[18] violations.

Definitions:

[16]Registered Pesticide

A registered pesticide is any pesticide required to be registered by EPA or the state/tribe under state/tribal law.

[17]Misbranded Pesticide

Pesticides can be misbranded for a number of different reasons. The following are examples of labels which may be misbranded:

Section 3 labels:
Third-party labels fail to include all required information contained on the master label, or add language not present on the EPA accepted parent label.

Label amendments requiring review and acceptance by the EPA Product Manager before release into the marketplace are submitted by letter of notification to EPA.

Section 25(b) exempt products:
Labels that do not meet the labeling requirements for products which are exempt from Federal registration under Section 25(b).

Section 2(ee) bulletins:
Registrants may publish written recommendations as allowed under Section 2(ee), however, those recommendations are limited in scope. A 2(ee) "bulletin" or recommendation that fails to meet those limitations would be considered labeling and may render the product misbranded if it differs from the EPA accepted label.

[18]Composition Differs

A pesticide differs in composition if the formulation of the product is in any way different than that stated on the ingredients portion of the label. Pesticides can also differ in composition if any of the ingredients are sourced from suppliers different than that stated on the confidential statement of formula.

Paperwork Reduction Act Notice (**OMB Control No. 2090-NEW/Expiration Date xx/xx/xxxx**)

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. (OMB Control No. 2090-NEW). Responses to this collection of information are mandatory for certain persons, as specified at 40 CFR Parts 30 and 31. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to be **161.7** hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address."

This collection of information is approved by OMB under the Paperwork Reduction Act, 44 U.S.C. 3501

et seq. (OMB Control No. 2070-0198). Responses to this collection of information are mandatory for certain

persons, as specified at 40 CFR Parts 30 and 31. An agency may not conduct or sponsor, and a person is not

required to respond to, a collection of information unless it displays a currently valid OMB control number. 1
