2 Conventions in this document

The conventions described below are an attempt to render dynamic UI elements and interactive content and behaviors in this static word document.

Radio Button (select one in the group)

Checkbox (select any in the group)

Textbox (enter text)

Option 1
Option 2
Option 3

Dropdown box (Select one)

Searchable list of things

A search box that will narrow the results as the user types, e.g., states and countries

Date Picker

When the user selects the control a date picker will appear. They can also enter the date via the keyboard.

Single Add

As the user types a list of matching values will appear in a dropdown list. The user can click on an entry in the list, and it will be added to the textbox in a pill format. If the string of characters is new the user can hit tab/enter and the new value will also turn into a pill.

<table border="1"><tr><td>×</td><td>Alaska</td></tr></table>	×	Alaska
×	Alaska	

Same as Single Add but the user will then be able to enter further values. This is an example:

Multi Add

<table border="1"><tr><td>×</td><td>Alaska</td></tr></table>	×	Alaska	<table border="1"><tr><td>×</td><td>Hawaii</td></tr></table>	×	Hawaii
×	Alaska				
×	Hawaii				

[Button]

A button that performs an action. Added for context around managing lists and final submit
