

U.S. NATIONAL SCIENCE FOUNDATION RESEARCH TRAINEESHIP (NRT) PROGRAM

Project Instrument

Version: Draft

Prepared by CBS and NSF

This instrument is filled out by the Principal Investigator (PI), Project Coordinator, and any Co-PI to whom the PI has granted permission.

This instrument can only be submitted to NSF by the PI.

The public reporting burden of this collection of information is estimated to average 30 hours per response, including the time for reviewing instructions, gathering data to answer the questions, and responding to the questions. An agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB number, nor may it collect individuals' responses unless the number is displayed. The burden number for this collection is 3145-0263. Send comments regarding this data collection or burden estimate to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 401 Dulany Street, Alexandria, Virginia 22314; telephone (703) 292-7556; or send an email to splimpto@nsf.gov.

1.

1.1 Conventions in this document

The conventions described below are an attempt to render dynamic UI elements and interactive content and behaviors in this static word document.

☐ Radio Button (select one in the group)

☐ Checkbox (select any in the group)

Textbox (enter text)

Option 1
Option 2
Option 3

Dropdown box (Select one)

A search box that will narrow the results as the user types, e.g., states and countries

When the user selects the control a date picker will appear. They can also enter the date via the keyboard.

As the user types a list of matching values will appear in a dropdown list. The user can click on an entry in the list, and it will be added to the textbox in a pill format. If the string of characters is new the user can hit tab/enter and the new value will also turn into a pill.

× Alaska

Same as Single Add but the user will then be able to enter further values. This is an example:

[Button]

A button that performs an action. Added for context around managing lists and final submit

<Information>

Text in angle brackets is inserted by the system and is read-only.

[Read only]

These data are read-only and can only be changed by contacting support.

[Read only after first year]

The data are read-only after the first year. After the first year these data can only be changed by contacting support

[Preloaded]

These data are pre-loaded at the beginning of the reporting period.

[Copied]

These data are copied from the previous year when preparing for a new reporting period.

[Change management]

These data are subject to other rules when they change.

{Skip Ref A-Z}

Indicates that a response to this question affects other questions after it.

{Skip when A-Z}

Indicates that the question should be

skipped if the skip reference meets a certain criterion

This is instructional text

Instructions to the respondents

DRAFT

2 Survey Preparation Checklist

✓	Update Trainee List
✓	Add International Experiences

[Open Trainee Surveys]

3 Update Trainee List

3.1 How do NRT trainees in your program earn their degree?

Mark all that apply.

Required

[Copied]

- ☐ Trainees earn their degrees from the NRT multidisciplinary/interdisciplinary program.
- ☐ Trainees earn their degrees from traditional single-discipline departments.
- ☐ Trainees earn their degrees from multidisciplinary/interdisciplinary programs, centers, or units other than NRT.
- ☐ Other (certificates, etc.) *{Skip Ref A}*

3.1.1.1.1 If Other, please specify:

{Skip if A unchecked}

7 Accomplishments and Impacts

Note: For the final system, there will be short, generalized examples included.

7.1 Do you have any accomplishments and impacts to report?

Select one.

Required

{Skip Ref A}

- ☐ Yes ☐ No

{Skip if A is "No" Begin}

7.2 Please describe any accomplishments and impacts that:

- Demonstrate how your NRT project has been effective in attaining the interdisciplinary research goals you originally set out to achieve.
- Illustrate exceptional added value to the trainees' educational experiences.
- Involved either a single trainee or a group of trainees and was made possible through the participation of trainees in your NRT project.

If appropriate, include evidence from the evaluation that supports these outcomes.

While we do not limit the number of responses that you can enter, we expect to see 1-3 Accomplishments and Impacts in a typical reporting period.

Respondents can enter as many Accomplishments and Impacts as they wish.

- Accomplishment and Impact 1 [\[Edit\]](#), [\[Delete\]](#)
- Accomplishment and Impact 2 [\[Edit\]](#), [\[Delete\]](#)

[\[Add Accomplishment and Impact\]](#)

{Skip A End}

7.3 Add Accomplishment and Impact

7.3.1 Accomplishment and Impact

Required

Limit 1000 characters

7.3.2 Aspects

Mark all that apply.

- ☐ This accomplishment / impact has been effective in attaining the interdisciplinary research goals you originally set out to achieve
- ☐ This accomplishment / impact illustrates exceptional added value to the trainees' educational experiences
- ☐ This accomplishment / impact involved either a single trainee or a group of trainees and was made possible through the

participation of trainees in your NRT project

7.3.3 If this accomplishment / impact resulted from one or more international experiences, please indicate those that are applicable.

Mark all that apply.

List is generated from the list of international experiences in the current reporting period

- ☐ International experience 1
- ☐ International experience 2

8 Products*

Only products published or completed during the reporting period should be included; planned or in-press products should be reported in a subsequent report, after publication. Enter all products into the reporting system; do not upload as a pdf file. Published journal or conference papers are to be deposited in the NSF Public Access Repository (NSF-PAR). Products should be included for both NRT funded and non-NRT funded trainees. All products resulting from the project should acknowledge federal support.

8.1 Journal or Juried Conference Paper

8.1.1.1.1 Did your NRT project publish any Journal or Juried Conference Papers?

Select one.

Required

{Skip Ref A}

☐ Yes ☐ No

DRAFT

Strategies for Recruitment and Retention One purpose of NRT is to create a program strategy and a plan for recruiting, mentoring, retaining, and graduating U.S. graduate students that includes efforts aimed at members of groups underrepresented in science and engineering. With these goals in mind, please respond to the following questions.

10 Recruitment and Retention Strategies

10.1 Do you have an overall active plan with a specific set of goals and timelines for the recruitment and retention of trainees, including specifics for broadening participation of all Americans in science and engineering?

Select one.

Required

{Skip Ref A}

☐ Yes ☐ No

10.1.1 If no, please explain:

{Skip if A is "Yes"}

Limit 1000 characters

10.2 Recruitment

10.2.1 Please describe your activities to recruit U.S. graduate students. This should be a narrative-style response; no tables or charts are needed or expected.

Required

Limit 1000 characters

10.2.2 Which of the following practices are you using to recruit trainees in general?

Mark all that apply.

Required

- ☐ Relationships with NSF programs that can provide an undergraduate pool of potential NRT trainees (e.g., REUs).
- ☐ Relationships with faculty and programs at other academic institutions.
- ☐ New opportunities for research/education/training developed by faculty.
- ☐ Use of recruiting resources on your campus (e.g., career service office, graduate studies office).
- ☐ Collaboration with other NRT projects on recruitment.
- ☐ Use of professional meetings, conferences, and associations to communicate with, reach out to, and market to potential NRT trainees.
- ☐
- ☐ Bridge programs for entering graduate students.
- ☐ Other {Skip ref A}

10.2.2.1 If Other, please specify:

{Skip if A unchecked}

Limit 5 items

Multi Add

10.2.3 Do you have any promising strategies and/or results for recruiting qualified trainees to your NRT project?

Select one.

Required

{Skip Ref A}

- ☐ Yes ☐ No

{Skip if A is No - Begin}

10.2.4 Which of the following recruiting practices employed by your NRT project do you consider are the most promising or effective for recruiting qualified trainees?

Mark all that apply.

Required

- ☐ Relationships with other NSF programs (e.g., NSF Research Experiences for Undergraduates)
- ☐ Use of resources on your campus (e.g., academic advancement programs, offices for student support, or student groups).
- ☐ Interaction with professional associations, or other external organizations or groups.
- ☐ Mentoring or advising arrangements that pair trainees with faculty or graduate students on campus.
- ☐ Other *{Skip ref I}*

10.2.5 Please describe promising strategies and results for recruiting qualified trainees to your NRT project. This should be a narrative-style response; no tables or charts are needed or expected. While we do not limit the number of responses you can enter, we expect to see 1-3 strategies and their results in a typical reporting period.

At least one response is required.

Respondents can enter as many Recruitment Strategies and Results as they wish.

12.2.3 What do you plan to do during the next reporting period? Report evaluator, advisory board, and any other relevant recommendations that came out of your project during the current reporting period and how you plan to use that information to improve the training model and/or project. This section should be completed in collaboration with the evaluator.

Required

Limit 1000 characters

12.2.4 Have the results been disseminated?

Select one.

Required

{Skip Ref A}

☐ Yes ☐ No

12.2.5 Please describe how the project results, including the outcomes of any training, have been disseminated.

Limit 1000 characters

{Skip if A is "No"}

13 Institutional Impacts

13.1 Please indicate any changes and/or impacts that have occurred in your institution as a result of your NRT project.

Mark all that apply.

Required

- ☐ The institution(s) involved in your NRT project has/have been successful in obtaining large-scale Federal grants (e.g., Science and Technology Centers, Engineering Research Centers, Materials Research Science and Engineering Centers).
- ☐ Interdisciplinary/multidisciplinary courses have been developed for NRT trainees and associates.
- ☐ Interdisciplinary/multidisciplinary courses are being delivered to NRT trainees and associates.
- ☐ Interdisciplinary/multidisciplinary courses that have been developed for NRT are being delivered to non-NRT students.
- ☐ Interdisciplinary/multidisciplinary courses that have been developed for NRT have been institutionalized in the course offerings on the NRT campus
- ☐ New certificate or degree programs have been developed and are available on the NRT campus(es).
- ☐ Department curriculum or policy changes took place to emphasize or require interdisciplinary/multidisciplinary preparation for all graduate students.
- ☐ Institutional changes that support and encourage team multidisciplinary/interdisciplinary course development and teaching have occurred.
- ☐ Institutional changes that support and encourage team-based graduate student learning and assessment have occurred.
- ☐ Institutional changes that support and encourage graduate students to gain laboratory and research experiences across disciplines have occurred.

NRT Project Instrument

- ☐ Institutional changes incorporating improved recruitment and retention policies and practices based on NRT have occurred.
- ☐ Other institutional actions/work. *{Skip Ref A}*

13.1.1 If Other, please specify:

14 Changes/Problems

14.1 Did your NRT project encounter any changes or problems?

Select one.

Required

{Skip Ref A}

☐ Yes ☐ No

{Skip A Begin}

14.2 Please identify and describe the key changes/problems (e.g., programmatic, institutional) you have encountered in the process of implementing your NRT project, including barriers to institutionalizing effective training elements. For each change/problem identified, briefly describe how your project has responded.

At least one response is required.

Respondents can enter as many Changes/Problems as they wish.

15 Final Submission to NSF

Final Data are ready to submit.

This section provides the link for PIs to submit their completed surveys. Final submission is possible once the required sections for your award are completed and trainees have completed their portion of the NRT survey.

You have chosen to notify NSF that your data are final. Are you sure you are ready to finalize the data for the current reporting period? After submission, the NRT Data Reporting System will revert to a **read-only** version of your data. You will be able to view your final results but not update them.

To submit your final data, click on **Send Final Submission** below. Click on **Cancel** to return to the Main Menu without submitting your data. Note: If you click **Cancel**, your data will be saved, and you will still be able to report or revise your data. If you are confident that you have finished reporting your data, respond to the burden question below and click **Send Final Submission**.

15.1 Approximately how many person hours were required to prepare data and complete the NRT online survey?

Required

☐ **I certify that all of the information that I entered in the annual report is correct to the best of my knowledge.**
