A Message from the U.S. Census Bureau:

We request your participation with the **Survey of Construction.** The information requested is detail level data on construction progress and characteristics of new residential housing. One or more of your new residential construction projects has been selected to participate in our survey. A Census Bureau field representative will be contacting or visiting you soon to explain more about the survey and collect the information.

The Survey of Construction produces a variety of statistics on new residential construction and is partially funded by the Department of Housing and Urban Development (HUD). The survey produces key estimates, such as starts and completions of new single- and multifamily units and sales of new single-family houses. Government and private entities use these statistics to monitor and evaluate the large and dynamic housing construction industry and to make vital economic decisions.

YOUR RESPONSE WILL BE KEPT STRICTLY CONFIDENTIAL. Information about the authority, confidentiality, and burden of this data collection can be found on the back of this letter.

For assistance with completing this survey, please contact the Atlanta Regional Office at the contact information below.
