Underneath is the brain stem, which connects the brain to the spinal cord, a nerve pathway that runs all the way down your back sending and receiving information from our senses.

The brain stem includes the pons, which helps control our breathing, and the medulla oblongata, which regulates our heart, and other body reflexes like vomiting, coughing, sneezing, and swallowing.

The **limbic system**, a region under the cortex, processes our emotions and drives.

It contains the brain's reward circuit which releases the chemical dopamine, making us feel pleasure.

The anticipation of pleasure motivates us to repeat important human behaviors like eating, having fun with friends or falling in love. But it also encourages us to repeat risky behaviors, like taking drugs.

Drugs signal the brain to release unusually strong amount of dopamine.

This flood of dopamine causes the "high" that drug users seek, and makes it difficult to enjoy more normal, simple pleasures. Repeated activation of this reward pathway can lead to addiction.

The limbic system includes the amygdala, which processes emotions, and the hippocampus in the temporal lobe---which is like a "memory indexer" that sends memories to certain parts of the brain for storage, and retrieves them when you need them.

The brain controls many actions through rapid nerve impulses, but there are some body functions that the brain modulates over many hours or days, by secreting hormones via special glands, like:

- The hypothalamus, which wakes you up in the morning, and gets the adrenaline flowing, like during a test or athletic event.
- The pituitary gland (often called the "master gland") which helps control growth, body temperature, pregnancy and child birth
- and the tiny pineal gland which helps to control sleep and circadian rhythms.

These are just a few of the parts and functions of the beautiful, amazing, and complex human brain. It is the center of our world and seat of our intelligence. We must exercise it, protect it, and understand how important it is to every thought and action in our daily lives.

In this article everything stated about consciousness and neuroscientist's underpinning (mapping) and measuring my Human existence molecular being, cell atlas and ^{every} neural circuits, neural network, synapses has been mapped then decrypted, decoded, and the encrypted, encoded (from my Weenick's Sarcophaga and through-out) starting with my neurons to create everything conscious about me like I create and produce naturally (overriding my ability using microstimulate Brain Organoid Chips and Neuroprosthetic Brain Mind Psych and Anatomy technologies from criminal Defendants illegal Quantum Computer with advanced A.I. Learning to create everything ~~of~~ me, and beat every neuro-biotechnology analysis ever made and ever done, even creative imagination and memory, that are not me or mine, and no neuro-biotechnologies can tell the difference. Even confounding electrical and magnetic activity and blood flow so no technologies detect anything, and use Electrical/Magnetic Force technologies created by the same criminal Defendants (Shannon Rutledge-Chambers, Rutledge, kids, family's associates) with using criminal Defendants Behan R. Sackey's (family's, associates, etc...) Imagine One Corp's Electromagnetic Force technologies and ~~the~~ ^{Neuroprosthetic Brain Mind Psych, and Anatomy technologies} Electromagnetic Force technologies to hide them and everything done.

Criminal Defendants even have intelligence, judgement, reasoning, etc... mapped in me to decrypt, decode, encrypt, encode neurons to these areas and mostly to close my brain, nerve fiber reducing my intelligence, judgement, reasoning and articulate, etc... almost in half of times

My Brain even communicates by my neurons being decrypted in the ~~Wernicke's~~ Broca's Area sensory to create everything of me even creating the mind to communicate feeding my Daughters to the molesters, rapist in white coats to child molesters (Sound Mental, but I can prove everything). Criminal ^{Defendants} never used communication technologies in Sep 2023 where it was just like listening to a cell phone inside the skull in different areas, even putting up to screens like movie ~~screens~~ screens inside my head just like watching a movie like saw "Christian" the other "Outlaw." And that was it, then right after (and never been able to since) I can't even use my own mental visions or memories, like trying to think ideas but can't see them due to the Neuroprosthetic BrainPower, Psyche, and Anatomy technologies encrypting neurons closing my brain and nerve fibers to areas all in my Brain and closing off all memory and most times areas of coordination.

There is a way to prove everything and it is the only thing I have requested (outside of shutting all technologies down permanently and locating them including Medias (Films etc...), communications, research, biopharmaceuticals, biomedicals, etc... controlling everything ever made (especially since 2020) and all profits and all media (Films etc...) ever done of me and my Daughter, research and patents, technologies ever made.

I ask for the courts to get the F.B.I., C.I.A. or DoJ to come see me in person (they keep shutting in person means in technologies and it never has and I keep writing telling them, I can't use any technology) and I've never been the one communicating in any way,

copying or working with anybody, everybody pretty much knows
this, and conspires against CIA, DoD, FBI, my political associates/
members National Socialist Party by using the same Neuroprosthetic
Brain Mind Psyche and anatomy technologies in their Brains to
test every analysis. (CIA, DoD, FBI)

So Defense Dept (colleges already have this), FBI has to
set up a location where no technologists can access me (satellite,
computers, frequencies) ... the chips in my Brain, etc... then
do the following neuro-biotechnologies (and every technology
made or ever used to analyze, monitor, etc... me)

let a few words in or a flash of an image, maybe once, twice a day,
more recently due to all my lawsuits and packages to FBI,
CIA, DARPA, German Consulate. I've had every neuron wrapped and my

not more consistent with the Neuroanesthetic BrainMind Psyche and

Defendants 1 and 2 refuse to respond to my request, knowing Defendant 2 has technology in me, Defendant 1 has refused to come speak to me, criminally charge, confiscate and shut all technologies down including the Media's, communications and Research Defendants have done and are doing (Defendants that are Criminal and in every lawsuit I keep filing, even writing U.S. and State Magistrates with no responses, to have charged). Defendant 2 has also refused to come speak to me or respond to my request and both Defendants 1 and 2 have not even responded to my Freedom of Information Act, Public Records Act or Production of Documents and Interrogatories request made March 30th, 2025. Even the N.C. Dept of Adult Corrections sent/faxed to Defendants 1 and 2 records requests to obtain records of all companies, colleges, Media's and researchers neurotechnologies and names of every individual involved (and criminally charge everybody and shut all neurotechnologies down) in November 2024 and neither would respond believing I consented to everything (which I never have) and that they have ^{been} communicating with me through the technologies, for which they never have either). The N.C. Dept of Adult Corrections also sent records request by fax to Defendants 3, 4, 5, 6, 7, 14, 17, 19

AND these Defendants either have/had technologies in me, know of the technologies or know of over-sight activities boards to get evidence of the Defendants technologies AND Research (all of it and the technologies ever done AND used has been illegally done, without consent AND criminal, even Defendants 2 are without consent AND still don't believe me due to the Neuroprosthetic's built by Criminal Defendants, evidence to research included).

Before to coming to prison in 2021 I made 8 trips to the F.B.I. in Charlotte, N.C. AND they refused to speak to me (except once a female agent came to the Gatehouse, AND kept talking to me like I was joking or acting, even gave me a fake name, May 2021. I called back to speak to her later AND found out there was no agent by that name AND found out since being incarcerated the FBI thought I had consented to everything, even that they had met me or Darryl had, AND I had consented to the Media's AND research Criminal Defendants were doing AND still doing since the technologies cut back on Aug 25th, 2023 (While I'm in prison, which is illegal, I never consented, inmates can't consent AND it's illegal to do Research on inmates or run technologies to inmates including Media's filming them, AND I didn't AND never have). They wouldn't even let me in the building AND knew Defendants were filming with Alex's phone. Now both still refuse to respond even to my F.B.I. A.

And I can prove Defendant ~~two~~ has technologies in me
and that Criminal Defendant Sharon R. Hooch-Chambers
is even working with them, and using her Grant writing
to fund technologies she's built in me (and using the Media

3, 4, 6, 7, 12, 13, 15, don't believe me, think I have been communicative to them (or anybody) and I never have or been able to. And you're gonna find as Defendants respond to my request by your court order, I'm writing the truth and it's why none of them have responded to any of my letters/ legal mail and attempts to get them here in person to prove it, or even responded to my requests for records, documents, evidence or to have their technologies research and media's shut down confiscation and charges on everybody. And why none have responded to my FOIA's or Public Records Act request.

Defendant 3, ^{and I} sent numerous requests since Oct/Nov 2023 to have their technologies shut down and their research shut down (all permanently) and send me evidence. Even sent FOIA, Public Records Act Request, Interrogatories and production of Documents March 20th 2024 (along with Defendants 1, 2, 5, 6, 8, 9, ~~15, 16~~, 17, 18, 19) and no responses from them or any Defendants. Even had criminal Defendants → Shannon Pullen-Chambers (Grant writer, associate of Duke) and Stephanie Wilkeson-Yoder (Mental Health Nurse, went to Wake Forest Univ and ex-girlfriend of mine from High School) admit to me in September 2023 (since I've been in Prison) they were using the technologies on me, put their college's technologies

in me (and other technologies, research). ^{CRIMINAL} Defendant Shanon
Rutledge Chambers admitted she was doing the Media
technologies with her church, asked if I consented and I
told her NO (this was Sept 2023), I didn't consent in 2021
(or ever) and I wouldn't now. I even told her and all
~~CRIMINAL DEFENDANTS~~ Defendants to shut down all their technologies and Media's,
what they're doing is illegal, I don't consent, wait ever and
inmate's can't consent. She or no one shut down any
thing and still doing it this minute, even after I've
written the U.S. Magistrate March 2024 to have her
and everybody criminally charged, Wake County Magistrate
July 2024, and neither ever responded or sent anybody.
I've even wrote the FBI in Charlotte numerous times
to send somebody, confiscate everything and criminally
charge everybody, nobody's come, no responses.

In September 2023 3 other criminal Defendants admitted
to using the technologies and Media's on me, Bobby
Chandler, Mark Tracy, Adam Stoff (2 ex clients of my
Baptist church and Penches I attended their church with, the
other being a preacher I attended his church and admitted
my own mother gave him the technologies to use). None
of them has sent me evidence and my mother ^(CRIMINAL DEFENDANT) has been
working with my children's mother ^(CRIMINAL DEFENDANT) to try to take
custody and make me leave my Daughters, since before
2020, and I still refuse and won't ever give up on ~~them~~

my Daughter's (another reason they ran all these technologies in me and Built the Neuroprosthetic Brain Mind and Anatomy technologies, to try to make me, run me into prison, and make me look crazy trying to get evidence to prove what they've done). ^{criminal Defendants} My step-father and step-mother were involved in child porn of my Daughter with the children's mother, that I can prove also. ^{criminal} Defendants even showed me child pornography of my Daughter in Oct 2023 in the technologies (with another criminal Defendant, I believe is Sherman Ferguson) making the criminal Defendants also guilty of child pornography and why they keep running the technologies, making it impossible to even write. And this started when I caught my Daughter doing sex acts making my ex-husband Dec 2020 and told me their ^{criminal Defendant} had been teaching them and filming them.

I have also sent records request and request for evidence to Defendant 7 to get evidence and records request along with Defendants 12, 13, 14, 15, 16 ^{criminal Defendants} knowing they know of the technologies used by other ^{criminal Defendants} including Media's and communications.

I sent FOIA, Public Records Act and Interrogatories, Production of Documents, Admissions to Defendants

9, 17, 18 due to the Research, technologies having to be registered to their (or other) Neuro-Biotechnologies

activities oversight boards.

I learned that her or her nurse didn't believe me about my daughter's and the children's mother teaching them and filming them doing sex acts, so the nurse (a Defendant) helped the criminal Defendants. The nurse retired right after and started coming to my barbershop for haircuts.

Currently I'm waiting on responses (and investigators possibly) from Defendants 15 and 16, who knew of the technologies and medias in 2021 and didn't even tell me or my attorney when I caught this charge behind

Defendant 16 even attended Criminal Defendant Mark Ivey (whom admitted Sept 2023 my mother gave him the technologies and he was doing Media's) Church and possibly still does. In Interrogatories, P.R.A. and admissions and documents request to her, I even have questions/admissions/interrogatories for her to answer about Defendant Mark Ivey I'm still waiting on. They are Defendants in Lawsuit I have on Appeal U.S. Fed Court and a State TORT Claim with the N.C. Industrial Commissioners.

(Understand my resources are limited, I have no attorney, even some are involved that will be (or are) Defendants. I have no one and even a Political Associate who happens to be my A.A. sponsor, a short German named Geh, doesn't believe I'm not the one communicating in any technologies or ever consented to them, including all the Media's and Research. Geh's not a Defendant)

Statement

In May 2021 technologies began opening in my Head, around my Head, in my Brain (that are RadioAcoustic, microwave, optic Frequencies and Electromagnetic Force) while criminal Defendants using them also started running Media's (filming, streaming, recordings, etc...) and none of it did I know where it came from and I never consented to any of it (still haven't, including all technologies, Media's and Research).

After being incarcerated behind the technologies Nov 8th 2025, chips started popping in my Head I would sneeze out. I reported the technologies to jail staff (when I've learned the Sheriff Don Brown and others in the courthouse and Sheriff's Dept knew of some of the technologies and Media's and never informed me or my attorney) who sent me to Central Prison for safekeeping. There I told the prison Psychiatrist whom put me on forced medications, which no medication in the world or technology (some in me are, Lock Up: Biopharmaceuticals, Biomedical's) can help or treat the technologies ^{chips} Defendants have built in me since first opening May 17th 2021 for Neuroprosthetic's BrainMind (cognitive, Psyche, Psych), and anatomy (evidence to Lock Up included). They use these Neuroprosthetic's to make me look a part of everything and like I'm communicating to them (criminal Defendants) and everybody. It's why Defendants in this lawsuit don't believe me, think I'm repetitive and working with the criminal Defendants and consented to everything and I never have, no matter the torture the

criminal Defendants do now have done with the Neureprosthetic they even use to make the Brain feel like it's ripping a patch like a muscle, while they use (Zack Up:) Electromagnetic Force technologies, criminal Defendants also built in me since May 17th 2021 (while also having Electromagnetic Force technologies from DARPA/CIA, that I never knew about or was from them until Sept 2023) to pinch, AND SQUEEZE the inside of my Brain in over 30 locations while also building Electromagnetic Force technologies outside my Body, through-out my anatomy.

In 2021 I was (and still) fighting for custody of my Daughters when all this began by the criminal Defendants. Most of the criminal Defendants named in this suit I spoke to in Sept 2023, admitted to running technologies on me (some working with ^{Media's} researchers or research companies), knew I didn't know where any of the technologies or research or Media's came from in 2021, and knew of the U.S. Government DARPA/CIA technologies also in me (I didn't know for a fact where they came from until Sept 2023 of the CIA, then a prison Psychiatrist I met and explained some of the technologies and my beliefs, told me some of the technologies came from DARPA that are in me, and another inmate later gave me a package off the internet about DARPA, Brain Mirror technologies, so I've been writing them since) Prison Psychiatrist Jeffrey Jacobson confirmed March/April 2024.

He couldn't help me or do anything for me without it coming from the Warden whom has denied my letters and even told me he's not getting involved (I've been told the same by prison staff, even the Secretary of Corrections offices has denied helping me, nobody will even let me call F.B.I., DARPA/CIA or anybody or mail or fax them). He did give me the address to POGO to write (Project on Government Oversight) whom never responded. I've even wrote an attorney I saw on a 60 minute special, Mark Zaid Washington D.C. whom represents at least a dozen cases similar to mine, except now I know where most of the ones in me come from or the criminal Defendants whom are using or have them in me, including the ones behind some of the Media's (most are named in this suit, most have admitted but I still don't know the company's, researchers, church's, colleges, etc... names. I can't hear or see in the technologies since about the second week of October 2023, ^{CRIMINAL} Defendant's did show me a clip in the technologies of 2 films, just like watching at a movie theatre in Oct, 2023, they were doing ^{OR DONE} possibly of me).

Jack Up:

60 minutes, CBS episode, titled "Targeting Americans" July 7th, 2024.

You will see someone was actually caught using Brain technology and a device to hear (an FBI agent). This

was something that happened to me and criminal Defendant admitted to me in September 2023 she set up an app so everytime the CIA/DARPA technologies put on everybody else goes on (her and other's controlling the Neuroprosthetic Brain Mind, Psyche, and avatary technologies, or Electromagnetic Force technologies she built, (and it helps with mapping every neuron in me) or Biopharmaceuticals or Rhodia's technologies). They did everything conspiring against DARPA, CIA, and FBI (and still doing it) and even making them believe they met me in 2020, 2021 over the technologies or my Daughters, and they still never have.

In 2021 the technologies were driving me insane (they were still building them and mapping my neurons to decrypt and encrypt them) and I pulled into a parking lot to park and when I did I saw what I figured out later (and confirmed in Sept 2023) criminal Defendants. Shannon Rutledge-Chambres adopted son drop a device and was staring at me in his car (or a white car he was driving) and he sped off out of the parking lot. Immediately the Electromagnetic Force technologies in my brain (and not the ones opening outside it that are DARPA) started opening up and the pressure, pinching, squeezing, feeling all in my brain (over 30 locations) stopped (Defendants use their Electromagnetic Force technologies for the inside of

the Brain while the DARPA^{VIA} technologies open outside of the ~~case~~ that opens inside which don't feature or cause any problems (yet Defendants use the Neuroprosthetic Brain/Mind technologies and my Brain by them to blame the DARPA^{VIA} technologies, but it's not me blaming the DARPA^{VIA} technologies).

In 2021 I kept seeing criminal Defendants Shannon Rutledge-Chambers, Jaime Rutledge, Randy Rutledge, Lynn Rutledge (whom all live in W-Sauville from Hickory, Shannon in Concord over an hour from Hickory and I haven't seen or spoke to in over 8 yrs, Lynn about 20 yrs, until Sept 2023) driving around me in Hickory, or even following me once or twice when I tried going to the FBI in Raleigh trying to figure out what was going on. Since the FBI wouldn't speak to me or let me in the Building in Raleigh or Charlotte, I thought they had something to do with the technologies and the Rutledge's were under a Federal Investigation and (Shannon's a grant-writer she must've been laundering the money for them) got caught finally behind the child pornography of my Daughter's that Randy admitted to years before and I never could prove until I caught my Daughter's Dec 2020 (they were 5). Sounds crazy but I kept thinking the FBI was waiting for me to get custody of my Daughters and I also thought by the way my A.A. Spencer Geb (A German,

hung up the phone on me and sent me a text I didn't understand (a little later with how crazy everything was around me, and the technologies driving me crazy, I thought his text was some kind of code or secret language, because he never texted or answered my calls or spoke to me again, even now or in technologies and I've tried reaching him). So I spent from May 17th 2021 to March 2022 (as long as the technologies were on) trying to figure everything out and what he wanted from me because I felt he had connections to the F.B.I. and Defense Dept, he was involved. Plus his last text to me made me feel he knew about what was going on and the technologies, he hung up the phone and sent me a text to "quit pissin around." So I thought the F.B.I. was involved, and with him and knew of the technologies (which I found out I was right), but they didn't know the criminal defendants conspired against them and was building the Neuroprosthetic Brain/Mind, Psyche, and Anatomy technologies, doing research, running Media's (to also keep Cth or FBI from talking to me) and even got another criminal defendant to run her College's Biopharmaceutical technologies in me (Stephanie Wilkerson-Yoder and Wake Forest University) to help cover what the criminal defendants did and still doing to conspire against.

Beh, the FBI and (Drapa)/CIA. And to help them they
also get clients of my Barbershop involved, some even
lying to me in my shop, even lying about who they
were and giving fake names (my Square Booking App they
booked their appointments on will prove this) when they
come to get haircuts from me, even an ex-employee who
stole clients of mine did this and I didn't know or
could prove I was being filmed (and later found she
was one of the ones doing it). And found out since Sept
2023 her brother, a deputy sheriff and Columbia
police officer, is helping her cover for it, with
Local Law enforcement, thinking she was gonna get
away with it. And that's another reason I'm having
such a hard time getting evidence of the technologies,
research, media's, communications from (Drapa)/CIA, FBI
or Columbia Sheriff's Dept and nobody is responding
to my F.O.I.A.'s, P.R.A. request AND my interrogations
production of documents and admissions (because of criminal
Defendants Katelyn Perry her brother James and Family. Plus
criminal Defendant Mark Tully, who's connected to people
of the Columbia County Courthouse, through his church, AND
his involvement with the technologies and media's he's
already ^{admitted} to me to). And none of this, or to the criminal
Defendants (or anybody) did I ever consent to any of it and
won't. (and I don't know or use code or secret languages or signs, but

^{criminal}
Defendants made that a part of their Media's, and
communications to make it look I was and am communi-
cating to them. There is physical proof of all this
and F.B.I. and D.A.R.P.A. knows about it and
evidence of it and won't respond to my request or
anything I've sent them. I ask your Honor, legally
to grant my suit and issue an order for them to
respond and give me evidence and fulfill my
request in my Interrogatories by either bringing
it to me or U.S. Mail and order all Defendants
to respond to my F.O.I.A., P.R.A. request and
Interrogatories and production of documents, issue
Declaratory Judgment and Compel the Defendants
to respond. Even Wake Forest Law School, that N.C.
Prisoner Legal Services Recommended and inmates
tell me have responded to them, won't respond or
send my evidence and research I sent them back. And
I've written them several times since July/August 2024.
I found out that was because of ^{criminal} Defendant Stephanie
Wilkinson-Yoder and her father, a Professor there (also a
Defendant), Jack Wilkinson, last November 2024. And was told
in Sept 2023 due to my beliefs, and her mother's family
being a Holocaust survivor, was one of the reasons they
were doing it. All of this sounds frivolous but I can get
digital evidence to prove it all and ask your Honor to

by law to order the Defendants to respond, either physically bring me responses and evidence, or by U.S. Mail.

Since Aug 25, 2023 when the technologies went back on and everything started back, I spoke to almost every criminal ^{Defendant} on the list (2 of them won't accept my calls or write me back since asking for evidence on a ^{statement} of their involvement, Ray Mata, Stephen Pirelli, who I can also prove of their involvement), almost all admitted to their involvement (almost all of them was/is people I've had problems with before the technologies were out, that the Pullone's and my Daughter's mother got involved).

Google my Barber shop "Pullone's & Pirelli Barber and Shave, Hickory N.C. LLC." You'll see I had a high end shop, was highly successful and came from ex-convict, homeless with \$15,000 to do it by myself.

^{Criminal} Defendants are doing everything they can with the Neuroprothetic BrainMind and anatomy technologies to make me look mental and discredit me, even as I write this.

Criminal Defendant's Bob Jackey (Jack Up: Imaginative Corp) ^{CEO}
and his son have been clients at my Barber Shop. They are
best friends to my Grandson (Criminal Defendant Gene
Glaze) who allowed the criminal Defendants in to my
Barber Shop and set up the media's, even working from
his office. Bob Jackey also has technologies for Electro-
magnetic force upon me I learned and can prove, in
Sept. 2023. His influence in Columbia County and Court
house is another reason I'm having a hard time getting

EVIDENCE OR ANYBODY TO RESPOND. HE NEVER MY JUDGES
EVER HAD CONSENT FROM ME EITHER FOR ANY OF IT OR ANY
THING DONE (INCLUDING THEIR FAMILIES). THEY WERE/ARE
CONNECTED TO THE JUDGES OF MY RENT HOUSE WHERE I WAS
BEING FILMED ALSO (CRIMINAL DEFENDANT CHARLES LNU), AND I
NEVER CONSENTED TO IT. I COULDN'T PROVE ANY OF IT UNTIL
AFTER BEING IN PRISON. NOW THERE'S DIGITAL EVIDENCE OF IT
AND EVERYTHING FROM 2021 ON THE INTERNET, OF ME, AND
THE TECHNOLOGIES, AND I NEVER CONSENTED TO ANY OF IT
EITHER AND WON'T, IT'S ALL ILLEGAL AND I WANT EVERYBODY
CRIMINALLY CHARGED AND IN PRISON (AND THAT GOES FOR
WHAT THEY'RE STILL DOING, EVEN NOW).
