SUBJECT: Generic Clearance for National Cancer Institute (NCI)
Resources, Software and Data Sharing Forms OMB No. 0925-0775; Exp.11/30/2028

This is a request for OMB to approve a name change of the referenced ICR to “Generic Clearance for National Institutes of Health (NIH) Resources, Software and Data Sharing Forms”; omitting the National Cancer Institute (NCI) reference to be used on an as needed basis by the various NIH programs. Furthermore, we would like to add an alternative submission mechanism. Currently this ICR accepts a mini-Supporting Statement A with most sections being omitted for sub-studies. The information being collected is standard each time, and a template would cut down on writing time, reduce back-and-forth, and make it easier to compare submissions while still providing pertinent information and will be in line with other NIH generic ICRs.

Your full consideration is appreciated.
