and provide any additional context as applicable.

Immersive Reader in Microsoft Forms allows you to hear the text of a form title and questions read out loud while following along. You can find the Immersive Reader button next to form title or questions after activating this control. You can also change the spacing of line and words to make them easier to read, highlight parts of speech and syllables, select single words or lines of words to read aloud, and select language preferences.

Required

1.SBE Name:Single line text.

2.Responder Name:Single line text.

3.Responder Title:Single line text.

4.Responder Email:Single line text.

5.1.1. CMS clearly
to provide SBEs with a clear
lts and worked collaboratively
ew process.

Single choice.
