A Message from the U.S. Energy Information Administration and U.S. Census Bureau:

One or more of your company's establishments have been selected to participate in the **2025 Annual Manufacturing Energy Consumption Survey (AMECS)**, conducted by the U.S. Energy Information Administration (EIA). The survey collects information on manufacturing energy consumption and expenditures for selected energy sources. The AMECS will help capture the rapid changes within the manufacturing sector by measuring energy consumption and related manufacturing characteristics and behaviors; and will provide industry, policymakers, and the public with timely data. Your response is essential to ensure accurate and unbiased estimates of the manufacturing sector's energy consumption.
