

Chemical Data Reporting

Primary Submitter

EPA Forms 9600-010

OMB Control No. 2070-0162

Expiration 10/31/2026

Background

- The basic 2028 Form U structure is the same as the 2024 Form U structure. The Form U is comprised of one or more Chemical Reports. A Chemical Report contains the manufacturing, processing, and use information for a single chemical. Each site submits one Form U covering all of the chemicals manufactured (including imported) at its site. Note that there are two versions of the Form U – a primary and a secondary version:
- This document addresses the primary version, which is for domestic reporters (accessed through the Primary Authorized Official role for the CDX CSPP program service).

CHEMICAL INFORMATION SUBMISSION SYSTEM

TSCA Chemical Data Reporting (CDR) 2020 and 2024

OK

The Chemical Data Reporting (CDR) rule requires manufacturers (including importers) to report to EPA information concerning the manufacturing, processing, and use of certain chemical substances listed on the TSCA Chemical Substances Inventory. To access submissions made during the previous reporting periods, select TSCA Chemical Data Reporting (CDR) 2012 and 2016 from the drop-down. To complete the CDR 2020 form, select the TSCA Chemical Data Reporting (CDR) 2020 from the drop-down and click OK.

The software includes downloadable quick reference guides to guide you through the CDR submission process. Submit information for all reportable chemical substances at your site in one form. Note that a separate CDR submission is required for each reporting site. If you are not reporting on CDR, please select a different application in the drop-down menu.

Paperwork Reduction Act Notice

44 U.S.C. 3501 et seq. OMB Control No. 2070-0162. Responses to this collection of information are mandatory (40 CFR 711). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The public reporting and recordkeeping burden for this collection of information is estimated to 135.80 hours per response. Send comments on the Agency's need for this information, the accuracy of the provided burden estimates and any suggested methods for minimizing respondent burden to the Regulatory Support Division Director, U.S. Environmental Protection Agency (2821T), 1200 Pennsylvania Ave., NW, Washington, D.C. 20460. Include the OMB control number in any correspondence. Do not send the completed form to this address.

Chemical Data Reporting

?

Welcome to the e-CDRweb application. Create a CDR form for reporting under TSCA CDR by clicking the **Create New Form** button. Once the form has been created, select the  icon to modify the form. After the form is submitted, a  icon indicates that the submission is being processed. When the form is received by EPA, the  icon allows a user to download a copy of the submission.

To manage the access rights of Supports per site, the Authorized Official may assign the forms via the **User Management** tab.

Technical Contact Information

Chemical ID: 504-63-2

To identify a technical contact for the current chemical, select from the existing contacts in the table below, if available, or click the **Create New Contact** radio button to enter new technical contact information. You may use the same technical contact for multiple chemicals or enter a different technical contact for each chemical. Please enter the corresponding information in the below required fields or click the **Copy Information from CDX Registration** button to copy your contact information entered during CDX registration. To select the entered technical contact as the default contact for all chemicals at this site, select the corresponding radio button for the technical contact and click the **Mark Selected Contact as Default** button. You can change this on a chemical-by-chemical basis. In addition, this selection will not change the technical contact for any chemicals that have already been entered in your submission. All technical contacts must be assigned to a chemical to pass form validation.

☐ Create a new contact

☒ Choose an existing contact

Indicates the technical contact is not assigned to a chemical.

Review CBI Claims

CBI Claims and Substantiation

Click the Expand icon  to view and populate the substantiation answers for the CBI claims made for a chemical substance. Click the Copy icon  to generate the copy substantiation answer functionality. A grey checkmark  indicates that substantiation answers are not needed for the specific chemical substance. A green checkmark  indicates that substantiation answers have been provided and is complete. A substance that is missing an icon indicates an incomplete set of substantiation answers.

At this time the check marks do not update on the second page when there are more than 100 chemicals, however the validation will alert if there are substantiations missing.

Note: Click on a Chemical Identifier hyperlink to return to the chemical record to add or remove CBI claims. Otherwise, click on the plus sign (+) next to a chemical to substantiate its CBI claims. If you wish to claim confidentiality of your Company, Site, or Technical Contact, then ensure that the CBI checkboxes for any of those applicable attributes are selected for each chemical.

Show 100 entries

Search:

Chemical Identifier	Chemical Name	Chemical Alias	Status	Action
 65071-95-6	Tall oil, ethoxylated	N/A		
 98-56-6	Benzene, 1-chloro-4-(trifluoromethyl)-	N/A		
 53621-22-0	1-Decene, polymer with 1-octene	N/A		
 67762-96-3	Siloxanes and Silicones, di-Me, hydroxy-terminated, ethers with polypropylene glycol mono-Bu ether	N/A		
 9000-90-2	.alpha.-Amylase	N/A		
 9011-17-0	1-Propene, 1,1,2,3,3,3-hexafluoro-, polymer with 1,1-difluoroethene	N/A		
 103513-09-3	.alpha.-D-Glucopyranoside, .beta.-	N/A		

Please ensure that your CBI claims are substantiated at the time of submission. EPA will not provide CBI Notices of Deficiency for submissions completed during the 2024 reporting cycle. If you fail to provide the appropriate substantiation at the time of submission, then the claim may be rejected and data may be published as non-CBI.

Message

As the Authorized Official of SS test, I have identified you as a co-manufacturer company for the production of this chemical. Please use the e-CDR application to provide the manufacturing identification information for the Chemical Name or Alias provided in this email. See the instructions below for accessing the e-CDR application. You will need to use the unique identifier number to complete the report as a producing company.

Chemical Name / Alias

Unique Identifier
(Will be generated once email is sent)

Visit www.epa.gov/chemical-data-reporting for information regarding the CDR program, how to access the e-CDR web application, and instructions for reporting under the CDR rule. For additional information or if you believe that you have received this email in error, please contact me.

2024 Chemical Data Reporting (ACTION REQUIRED)

Message

As the Authorized Official of SG test, I have identified you as a Secondary Submitter of a joint submission for the 2024 Chemical Data Reporting (CDR). Please use the e-CDR application to provide the correct chemical identifier information for the trade product name provided in this email. See the instructions below for accessing the e-CDR application. You will need to use the unique identifier number to complete the Trade Product Name section of the form.

Trade Product Name

Trade Product 1

Unique Identifier

[Will be generated once email is sent.]

Visit www.epa.gov/chemical-data-reporting for information regarding the CDR program, how to access the e-CDRweb application, and instructions for reporting under the CDR rule. For additional information or if you believe that you have received this email in error, please contact me.
