

staff member to support the assessment, resulted in an increase in burden hours from the initial Clearance package (10,790 hours) compared to this Amendment (10,892 hours). In addition, the costs to the Federal Government have increased by \$1,889,007 from the initial Clearance package. Since the OMB approval of the initial Clearance Package, the Confidentiality Assurances are unchanged.

This Amendment includes updates to: Parts A and B including changes to burden hours and costs, committee members and their affiliations in Appendix A, communication materials in Appendix D (see headers notated with “NEW”), the school coordinator preassessment and assessment day feedback forms in Appendix E, Assessment Management System (AMS) screens in Appendix I (see headers notated with “NEW”), final survey questionnaire items (SQs) in J–1 (student), J–2 (teacher), J–3 (school administrator), the 2027 sampling memo in Appendix C. Additionally, NAEP changed the TUDA acronym from “Trends in Urban Districts Assessment (TUDA)” to “Trial Urban District Assessment (TUDA),” and references throughout package documents reflect this change. This package is the final submission for the 2027 NAEP assessment.

The following table and pages below provide a summary of the changes that are included in this submission.

1. Part A:
 - a. Burden and Costs to the Federal Government updates.

SUPPLEMENTARY INFORMATION: Proposal to renew the following currently approved collection of information:

1. **Title:** Summary of Deposits.

OMB Number: 3064–0061.

Affected Public: FDIC-insured

depository institutions.

Burden Estimate:

SUMMARY OF ESTIMATED ANNUAL BURDEN

[OMB No. 3064–0061]

Information Collection (IC) (obligation to respond)	Type of burden (frequency of response)	Number of respondents	Number of responses per respondent	Average time per response (HH:MM)	Annual burden (hours)
1. Summary of Deposits, 12 CFR 304.3(c) (Mandatory).	Reporting (Annual)	3,651	1	03:00	10,953
Total Annual Burden (Hours)					10,953

Source: FDIC.

Note: The estimated annual IC time burden is the product, rounded to the nearest hour, of the estimated annual number of responses and the estimated time per response for a given IC. The estimated annual number of responses is the product, rounded to the nearest whole number, of the estimated annual number of respondents and the estimated annual number of responses per respondent. This methodology ensures the estimated annual burdens in the table are consistent with the values recorded in OMB’s consolidated information system.

General Description of Collection: The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each year are required to file the SOD Survey. Insured branches of foreign banks are also required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking. There is no change in the substance or methodology of this information collection. The change in burden is due solely to a decrease of 657 in the estimated number of respondents, from 11,610 annual respondents in the currently approved information collection to the current estimate of 10,953.

Request for Comment

Comments are invited on: (a) whether the collections of information are necessary for the proper performance of the FDIC's functions, including whether the information has practical utility; (b) the accuracy of the estimates of the burden of the information collections, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collections of information on respondents, including through the use of automated collection techniques or other forms of information technology. All comments will become a matter of public record.
