Source: FDIC.

General Description of Collection: The Summary of Deposits (SOD) is the annual survey of branch office deposits as of June 30 for all FDIC-insured institutions, including insured U.S. branches of foreign banks. All FDIC-insured institutions that operate a main office and one or more branch locations (including limited service drive-thru locations) as of June 30 each year are required to file the SOD Survey. Insured branches of foreign banks are also required to file. All data collected on the SOD submission are available to the public. The survey data provides a basis for measuring the competitive impact of bank mergers and has additional use in research on banking. There is no change in the substance or methodology of this information collection. The change in burden is due solely to a decrease of 657 in the estimated number of respondents, from 11,610 annual respondents in the currently approved information collection to the current estimate of 10,953.
