Comment: Please continue to support the USDA PSTTT database. I work for a large school district (about 1500 employees) and we depend on the PSTTT to be our official record for school nutrition employee training. The reporting makes it easy to follow up with managers regarding training status of their teams, and makes it easy to provide the training records required during state audits. Please keep it in place.

Response: Thank you for your feedback and for emphasizing the value of the Professional Standards Trainings and Tracker Tool (PSTTT) in supporting professional standards management for large districts. We appreciate your continued use of the PSTTT and your insight into how it streamlines recordkeeping and audit preparation. Please do not hesitate to contact us with any additional feedback.

Sincerely,

SHELDON GORDON
