SUBJECT: USDA Professional Standards Trainings and Tracker Tool, Document Citation: FR Vol 91, No. 61 Pages: 15944–15945

TO: Shannon Anderson
anderson.shannone@tusd.org

Comment: The USDA PSTTT system has become increasingly difficult to rely on due to its inefficiency, overly complicated processes, and outdated technology. Tasks that should be straightforward often require multiple unnecessary steps, slowing down productivity and creating confusion for users. The interface and functionality feel behind current standards, making it harder to manage and track information effectively. Because of these limitations, our district has adopted an alternative tracking method that is more streamlined and better suited to our operational needs.

Response: Thank you for sharing your concerns regarding the USDA Professional Standards Trainings and Tracker Tool. I appreciate you taking the time to outline the challenges your district has experienced. If you are willing to share more about the specific challenges you've encountered or the features of the alternative method that have been most effective, that insight would be greatly appreciated and will help inform ongoing discussions. You may send any additional feedback to cnpntab@usda.gov

Sincerely,
