Content Changes Between the 2025 and 2026 AIES

Question

- Use of professional employer organizations (PEOs)

- New and used capital expenditures by structure type
- New and used capital expenditures by equipment type

- New and used capital expenditures for structures
- New and used capital expenditures for equipment

• No change to question. Respondents who believe they are misclassified will have access to BEACON, a machine-learning search tool, to identify and select a new classification.

• No change to question. Respondents will have access to ANSR, a machine-learning search tool, to identify and add product codes beyond those prelisted for them.

- Prior year total sales, revenue, and shipments

• Total sales, shipments, receipts, or revenue
• Total operating expenses in $$00
• Total number of telemedicine visits

- Total revenues from telemedicine services

- Annual payroll expense

• Presence of revenue generated from goods, services, or manufactured products that were ordered or whose movement was controlled or coordinated electronically (Y/N)

• Amount included in total operating expenses for depreciation and amortization charges in $$00?

- Capital expenditures for new and used industrial robotic equipment, including software, installation, and other one-time costs
- Number of industrial robots in operation at this establishment
- Remarks to explain if unable to provide the number of industrial robots in operation
- Number of industrial robots purchased for this establishment
- Remarks to explain if unable to provide the number of industrial robots purchased

- Capital expenditures in $$00 for new and used robotic equipment, including software, installation, and other one-time costs
- Types of robotic equipment purchased

• Value of inventories physically held at the locations included in the

• Value of inventories for finished goods • Value of inventories for work-in-progress • Value of inventories for materials, supplies, fuels, etc.
• Value of inventories owned at the end of the year

2025 vs 2026 AIES	Comments

Add to collection.	Add back to support frame maintenance and update the wording to include co-employment arrangements.

Remove from collection for SY26, recurring every 5 years.	These breakouts are only needed by our stakeholders every 5 years.

Add to collection.	Removed for non-manufacturing companies last year for collection of detailed breakouts by type. Readding total fields while removing breakouts.

Access to search tool	As a test for the 2027 Economic Census, select companies will receive updated questions based on their newly selected classification.

Access to search tool	Access to this tool is being given to select industries as a test for the 2027 Economic Census.

Add to collection.	Needed for sample linking.

Add to collection, replacing establishment-level question for these industries.	These industries are unable to provide establishment-level revenue and expense data by nature of their activities. They will now be asked these items at the industry level rather than the establishment level. Other industries will continue to receive this question at the establishment level.
Add to collection, replacing establishment-level question for these industries.	These industries are unable to provide establishment-level revenue and expense data by nature of their activities. They will now be asked these items at the industry level rather than the establishment level. Other industries will continue to receive this question at the establishment level.
Add to collection.	After speaking to external healthcare management experts, we have decided to change the telemedicine question from a dollar revenue value to number of visits for SY26. Additionally, the question will be a subset of the outpatient visit question.

Remove from collection.	After speaking to external healthcare management experts, we have decided to change the telemedicine question from a dollar revenue value to number of visits for SY26. Additionally, the question will be a subset of the outpatient visit question.

Adding an error in the collection instrument to require response to this question.	No change to question, but this will be a required item. Respondents will not be able to submit without entering a value (zero is acceptable).

Add to collection.	This is being added to provide more information to help us improve imputation of the e-commerce revenue dollar question.

Add to collection.	This was previously dropped because stakeholders were not using the value other than to subtract it from total expenses. Adding it back because the total expense value collected should include it, but our stakeholders still need a way to remove it.

Remove from collection	Manufacturing units will now receive the same standard robotics questions that other industries receive. A note will be added to include industrial robots in that value.

Add to collection.	Manufacturing units will now receive the same standard robotics questions that other industries receive. A note will be added to include industrial robots in that value.

	The value of inventories for these industries

Remove from collection	Stakeholders no longer need these inventory breakouts from these industries.
Add to collection	Stakeholders need total inventories from these additional industries.
