Box 1

Sample enrollment and data collection through this date:	7/10/2024

Box 2

# Youth enrolled in study to date	
n =	999

Box 3a

# Assigned to treatment	
n =	500

Box 4a

# Completed baseline survey	
n =	455

Box 5a

# For whom short-term follow up has closed	
n =	420
# Completed short-term follow up survey	
n =	380
Retention rate (automatically calculated)	
% =	90.5

Box 6a

# For whom long-term follow up has closed	
n =	335

# Completed long-term follow up survey		
	n =	301
Retention rate (automatically calculated)		
	% =	89.9

Progress Towards Goal - Box 7

Target # youth from evaluation plan	n =	1100
# Youth enrolled in study to date (from above)	n =	999
# Needed to recruit (automatically calculated)	n =	101

The purpose of this information collection is to help PREIS grantees track participant enroll retention. Public reporting burden for this collection of information is estimated to average .25 h respondent, including the time for reviewing instructions, gathering, and maintaining the data ne reviewing the collection of information. This is a voluntary collection of information. An agency m sponsor, and a person is not required to respond to, a collection of information subject to the req Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number. The 0531 and the expiration date is 9/30/2025. If you have any comments on this collection of informa contact Selma Caal (Selma.Caal@acf.hhs.gov).

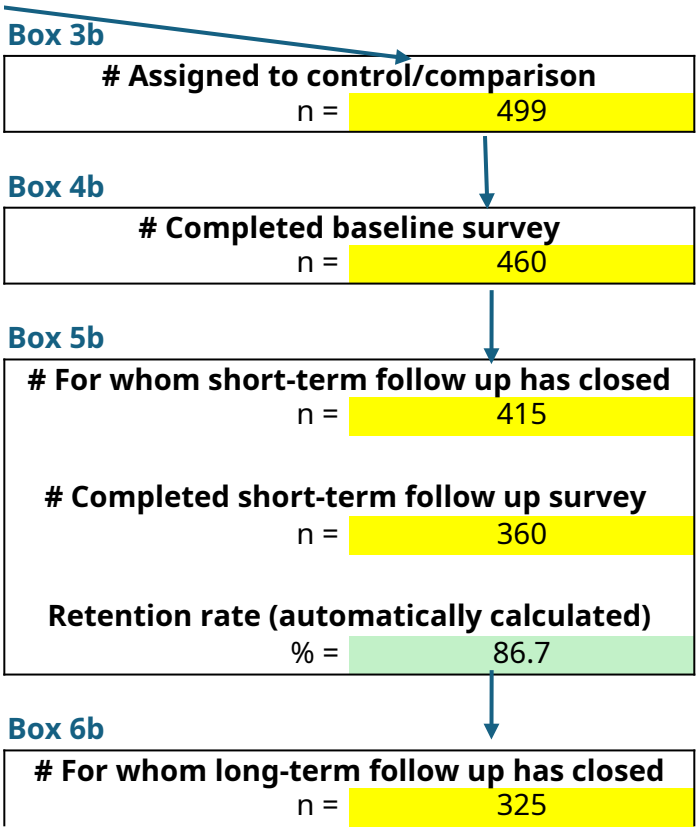

gathering, and maintaining the data needed, and reviewing the collection of information. This is a voluntary collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information subject to the requirements of the Paperwork Reduction Act of 1995, unless it displays a currently valid OMB control number.
