Sample Progress Reporting Tool for Cluster Assigı

The information collected in this form will be used for internal purposes to (1) asses sizes to the target sample sizes on which power calculations were based, and (2) for likelihood that the final analytic sample for key follow-up time periods might excee attrition specified by the Teen Pregnancy Prevention Evidence Review.

This form is for CLUSTER ASSIGNMENT. Complete this worksheet on your sample of c to the number of clusters. You will also need to complete the "Cluster Assignment - youth enrolled in these clusters.

To complete this form, enter information into the YELLOW cells. For instructions on instructions will pop up. GREEN cells will automatically populate based on the infor multi-arm studies, this form should be completed separately for each treatment/co contact your LES liaison or PREPLES@abtglobal.com.

A note on follow-up periods:
The PREIS Notice of Funding Opportunity defines short-term follow-up as up to 6 mo as 9 months or more post intervention. If you have more than one follow-up period with your LES liaison to select the follow-up period that is most meaningful for your

Box 1:
