Abstract: Section 3004 of the Resource Conservation and Recovery Act (RCRA), as amended, requires that EPA develop standards for hazardous waste treatment, storage, and disposal as may be necessary to protect human health and the environment. Subsections 3004(d), (e), and (g) require EPA to promulgate regulations that prohibit the land disposal of hazardous waste unless it meets specified treatment standards described in subsection 3004(m).

The regulations implementing these requirements are codified in the Code of Federal Regulations (CFR) Title 40, part 268. EPA requires that facilities maintain the data outlined in this ICR so that the Agency can ensure that land disposed waste meets the treatment standards. EPA strongly believes that the recordkeeping requirements are necessary for the agency to fulfill its congressional mandate to protect human health and the environment.

Form numbers: None.

Respondents/affected entities: Private sector and State, Local, or Tribal governments.

Respondent's obligation to respond: Mandatory (40 CFR part 268).

Estimated number of respondents: 77,612.

Frequency of response: On occasion.

Total estimated burden: 517,369 hours per year. Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $87,510,974 (per year), which includes $45,898,132 in annualized capital and operation & maintenance costs.

Changes in the estimates: The burden hours are likely to stay substantially the same.

Abstract: The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 7(a) requires that any person who produces pesticides, active ingredients or devices subject to the Act must register with the Administrator of EPA the establishment in which the pesticide, active ingredient or device is produced. This section further requires that applications for registration of any establishment shall include the name and address of the establishment and of the producer who operates such an establishment. EPA Form 3540–8, Application for Registration of Pesticide-Producing and Device-Producing Establishments, is used to collect the establishment registration information required by this section.

FIFRA Section 7(c) requires that any producer operating an establishment registered under Section 7 report to the Administrator within 30 days after it is registered, and annually thereafter by March 1st for certain pesticide or device production and sales or distribution information. The producers must report which types and amounts of pesticides, active ingredients, or devices are currently being produced, were produced during the past year, sold or distributed in the past year. The supporting regulations at 40 CFR part 167 provide the requirements and time schedules for submitting production information. EPA Form 3540–16, Pesticide Report for Pesticide-Producing and Device-Producing Establishments, is used to collect the pesticide production information required by Section 7(c) of FIFRA.

Establishment registration information, collected on EPA Form 3540–8, is a one-time requirement for all pesticide-producing and device-producing establishments. Pesticide and device production information, reported on EPA Form 3540–16, is required to be submitted within 30 days after the company is notified of its pesticide-producing or device-producing establishment number, and annually thereafter on or before March 1st. Pesticide-producing and device-producing establishments optionally can electronically enter and submit their establishment registration information and pesticide production information through EPA's Central Data Exchange (CDX).

Form Numbers: 3540–8 and 3540–16.

Respondents/affected entities: Establishments producing pesticides.

Respondent's obligation to respond: Mandatory (40 CFR part 167).

Estimated number of respondents: 20,762 (total).

Frequency of response: Initial and Annually.

Total estimated burden: 33,307.19 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: $2,961,348.61 (per year), which includes $0 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the estimated total burden per form compared with the prior ICR, but there is an increase in the estimated respondent burden due to an increase in the estimated labor costs (increase in hourly wages) and an increase in the number of respondents submitting each form increases the total hours (increase of 87.5 hours). The total estimated increase in respondent costs from increases in labor costs and total hours is $225,380.47.

Director, Compliance, Inspector, and Training Division.
