SECTION 1: PROJECT OVERVIEW

Project Information

Instructions: *Please complete the information below.*

Project Lead Name	
Project Title	
EPA Grant #	
EPA Program (e.g., FIFRA)	Promoting Readiness and Enhancing Proficiency to Advance Reporting and Data (PREPARED)
EPA Project Officer	
Project Start Date	
Expected Project End Date	

Project Objectives, Milestones, and Priorities

Instructions: *State the specific objectives as outlined in the approved grant work plan, along with your ability to meet your workplan's specific objectives.*

Community Engagement and Participatory Methods

Instructions: Answer the following questions in the space below:
i. How has your organization built trusting relationships with communities that they have partnered with?
ii. How has your organization prioritized the community in the design of outreach strategies, education, interventions, evaluation efforts, projects, and/or program development?
iii. How has your organization ensured community involvement, centered community challenges, lived experiences, and/or indigenous knowledge in their work from conception to dissemination?

Interim Progress Report Submission Schedule

Instructions - start of project: *Working with your Project Officer, please enter the expected dates in the submission schedule for the interim progress reports. Add or delete rows as needed to accurately represent the number and type of reports you are expected to submit for each year of the project.*
Instructions - when submitting each report: *Enter the actual date that you submit that report.*

Project Year	Report Title	Deadline Date for Submission	Actual Date of Submission
1	**Interim Progress Report 1**		
1	**Interim Progress Report 2**		
1	**Interim Progress Report 3**		
1	**Interim Progress Report 4**		
2	**Interim Progress Report 5**		
2	**Interim Progress Report 6**		
2	**Interim Progress Report 7**		
2	**Interim Progress Report 8**		
3	**Interim Progress Report 9**		
3	**Interim Progress Report 10**		
3	**Interim Progress Report 11**		
3	**Interim Progress Report 12**

Section 9. Program Management Upd

Fiscal Information
1. Are you requesting a budget change that is greater than 10% of the overall budget? Yes or No
2. Do you have questions about allowable use of funds? Yes or No I If yes, please list them here.
3. Are you drawing down funds timely and effectively? If no, what challenges are you having drawing down funds? Yes or No
4. Do you have a change in indirect cost rate? This needs prior approval prior to using a new rate. Yes or No
5. Have you submitted the required Financial Status Report? EPA recipients must submit the Federal Financial Report (SF-425) annualy.

Workplan/Personnel changes/Staff Turnover
6. Any major changes in project personnel/contracts?
7. Do you need to make a change to the workplan? What changes to the workplan do you need to make? (EPA Project Officer and Grants Management Office notification and approval are required.)

Challenges/Difficulties
8. Any problems or difficulties encountered during this reporting period?
9. How have they been addressed or resolved; alternatively, what actions need to be taken to resolve?
10. How can your EPA Project Officer better support you?

dates

Section 10: Financial Reporting

arly budget and carryover (no carryover in year 1).

Part B - Financial Challenges/Other Information

Discuss any financial challenges you have encountered and the strategies used to address them. Additionally, if you have any financially related news/requests (e.g., budget change, yearly overbudget), please explain below.

Partnerships & Networks
Extending networks, partnerships, and developing coalitions
Identify opportunities to streamline data collection processes, including cross-agency, intergovernmental, and
Developing partnerships and coalitions addressing environmental issues
Referring communities to other TA providers (e.g., Environmental Finance Centers, TA for Brownfields, etc.)
Development of other similar activities the applicant determines to be necessary and appropriate to carry out
Developing and preparing tools and materials for planned workshops, outreach, partnership building, training
Other related activities not captured above

Outreach & Engagement
Community engagements and relationship building linked to data, reporting, and evidence-building;
Creating opportunities for community to better define concerns and set priorities for discussion and action.
Identifying data and evaluation needs of communities via community outreach (e.g., focus groups, town halls,
Developing and preparing tools and materials for planned workshops, outreach, partnership building, training
Other related activities not captured above

Technical Assistance
Supporting personnel and data infrastructure needs related to performance management and program evalua
Preparing potential grant recipients for success in data collection and management, as well as post-award repo
Creating and maintaining user-friendly data that community grantees can use to help with basic post-award re
Creating a connection between programmatic efforts and desired outcomes through logic modeling
Supporting evidence informed decision-making for communities, including positioning disadvantaged commur
Supporting capacity for community-based program evaluation using qualitative and/or quantitative methods.
Incorporating mixed methods evaluation, research methods, and analyses inclusive of surveys and qualitative
Dissemination and translation of mixed methods, statistical analyses, and findings for lay audience/community
Developing workshops, training, and other skills development opportunities.
Building databases and accessing existing databases.
Pilots to assist with any of the aforementioned capacity or technical assistance activities
Developing and preparing tools and materials for planned workshops, outreach, partnership building, training
Providing training and guidance in the use and analysis of publicly available sources of data
Conducting training/technical assistance/workshops on developing and using logic models/Theory of Change
Conducting training/technical assistance/workshops on compiling, using, evaluating, and reporting data in sup
Developing/implementing custom databases for use by communities
Developing a custom data plan for a community
Conducting training/technical assistance/workshops on other data competency and evaluation topics
Developing and preparing tools and materials for planned workshops, outreach, partnership building, training
Other related activities not captured above

Training & Capacity Building
Preparing potential grant recipients for success in data collection and management, as well as post-award repo
Creating a connection between programmatic efforts and desired outcomes through logic modeling
Supporting evidence informed decision-making for communities, including positioning disadvantaged commur
Supporting capacity for community-based program evaluation using qualitative and/or quantitative methods.
Incorporating mixed methods evaluation, research methods, and analyses inclusive of surveys and qualitative
Dissemination and translation of mixed methods, statistical analyses, and findings for lay audience/community
Developing workshops, training, and other skills development opportunities.
